

SOPU3302TPX

Category	30"
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Thermo-ventilated
Cleaning system	Pyrolitic
EAN code	8017709313418

Aesthetics

Aesthetic	Classica	Serigraphy type	Symbols
Colour	Stainless steel	Door	With 2 horizontal strips
Finishing	Fingerproof	Handle	Classic
Design	Flat	Handle Colour	Steel effect
Material	Stainless steel	Logo	Embossed
Type of steel	Brushed	Control knobs	Classic
Glass Type	Eclipse	Controls colour	Steel effect
Serigraphy colour	Black		

Controls

Display name	EvoScreen	Control setting	Knobs
Display technology	LCD	No. of controls	2

Programs / Functions

No. of cooking functions	9
Traditional cooking functions	

 Static	 Fan assisted	 Circulaire
 Turbo	 Large grill	 Fan grill (large)
 Base	 Circulaire + bottom	 Pizza

Other functions

Defrost by time

Leavening

Sabbath

Cleaning functions

Pyrolysis

Options

Time-setting options

Delay start and automatic end cooking

Minute minder

Yes

Timer

2

Other options

Keep warm, Eco light, Tones

Cooking with probe thermometer

Yes

Showroom demo option

Yes

Rapid pre-heating

Yes

Technical Features

Minimum Temperature

122 °F

Maximum temperature

536 °F

No. of shelves

5

N. of fans

1

No. of lights

2

Light type

Halogen

User-replaceable light

Yes

Light Power

40 W

Light when door is opened

Yes

Lower heating element power

1700 W

Upper heating element - Power

1200 W

Grill element - power

1700 W

Large grill - Power

2900 W

Circular heating element - Power

2000 W

Heating suspended when door is opened

Yes

Door opening type

Standard opening

Door

Cool

Removable door

Yes

Full glass inner door

Yes

Total no. of door glasses

4

Cooling system

Tangential

Cooling duct

Double

Speed Reduction

Yes

Cooling System

Door Lock During Pyrolysis

Yes

Usable cavity space dimensions (HxWxD)

442x585x437 mm

Temperature control

Electronic

Cavity material

Ever clean Enamel

Performance / Energy Label

Energy efficiency class

A

Net volume of the cavity

3.92 cu. ft.

Energy consumption per cycle in conventional mode

1.00 kWh

Energy consumption in conventional mode

3.60 MJ

Energy consumption in forced air convection

3.06 MJ

Energy consumption per cycle in fan-forced convection

0.85 kWh

Number of cavities

1

Energy efficiency index

83.3 %

Accessories Included

Rack with back stop 2

Telescopic Guide rails, total Extraction 1

Temperature probe Yes, single point

Electrical Connection

Voltage 230 V
Nominal power 5900 W
Voltage 2 120/208 V

Current 2 20 A
Frequency (Hz) 60 Hz
Power supply cable length 45 1/4 "

Symbols glossary

	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		A: Product drying performance, measured from A+++ to D / G depending on the product family
	Air cooling system: to ensure a safe surface temperatures.		Defrost by time: Manual defrost function. At the end of the set duration, the function stops.
	The new EVOscreen display is enhanced with new, optimised colour graphics: 5 touch buttons control functions and parameters in an extremely simple way.		Quadruple glazed: Number of glazed doors.
	Automatic lighting deactivation: For greater energy savings, the lighting turns off automatically after one minute from the start of cooking. The option can be disabled via the settings menu. In this case the light will remain on for the entire duration of cooking.		Electric
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.		Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.
	Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.		Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.
	Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner.		Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.
	Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.		Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

 <p>Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.</p>	 <p>Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.</p>
 <p>Turbo: the heat comes from 3 directions: above, below and from the back of the oven The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.</p>	 <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>
 <p>KEEP_WARM_72dpi</p>	 <p>Side lights: Two opposing side lights increase visibility inside the oven.</p>
 <p>PYROLYSIS - AUTOMATIC CLEANING FUNCTION: the oven heats up to a temperature approaching 500 ° C and chars grease and food residues into a fine ash that can be easily wiped off with a damp cloth. At such a high temperature, the door locks automatically for safety, while the temperature of the door remains controlled so it is safe to touch User adjustable function based on the level of dirt present in the oven.</p>	 <p>Temperature probe: with the temperature probe it is possible to perfectly cooking roasts, loins, meat of various cuts and sizes. In fact, the probe improve food cooking, thanks to the precise control of the temperature at the heart of the dish. The core temperature of the food is measured by a special sensor located inside the tip. When the instant temperature reaches the target temperature set by the user, cooking is finished</p>
 <p>Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p>	 <p>Rapid preheating: cooking is preceded by the preheating phase which allows the cooking compartment to reach the set temperature. This option reduces the time by up to 50%.</p>
 <p>SABBATH: function that allows to cook food respecting Judaism's day of rest provisions.</p>	 <p>The oven cavity has 5 different cooking levels.</p>
 <p>Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.</p>	 <p>Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.</p>
 <p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>
