

# SPD516UK

Product Family Dishwasher
Subfamily Undercounter

Type Undercounter traywasher

**Crockery**: Crockery; Cutlery; EN 600x400 trays;

GN1/1 trays

Basket dimensions500x500 mmControl PanelElectronicRinse pumpHTR systemWash pumpStandard

**Default power supply**  $230 \text{ V} \sim /30 \text{ A} / 6.8 \text{ kW} /50 \text{ Hz}$ 

Dimensions 600x690x822 mm

### **Target**

Industries Hotels; Ristoranti /

Catering; Bakeries / Pastry shops; Butcher shops / Delicatessens; Catering; Care facilities; Commercial

food services

### **Aesthetics**

Led colour Green Series Topline

### **Technical Features**

Trays number 7 x GN 1/1 (530 x 325 mm); Max water hardness 12°f - 7°dH 6 x EN 1/1 (600 x 400 mm) Water inlet pressure 100-1000 kP

Water consumption per 3,2 |

cycle

Wash temperature 60 °C

(min-max)

Rinse temperature (min- 71 °C - 85 °C

max)

Warm water connection 8°C Minimum water 3,2 l

consumption per cycle

Max. inlet temperature 60°C

Max water hardness 12°f - 7°dH
Water inlet pressure 100-1000 kPa
Detergent flow rate 1.5 l/h
Rinse aid flow rate 0.4 l/h
Usable load height 400 mm
Depth with door open 1020 mm

### **Programmes**

**Programs** 

6 automatic programs; 1 fully programmable program;

Self-cleaning programs

**Program options** 

Extra rinse; Clean water cycle

Program table

Easyline dishwasher and traywasher 500

Maximum baskets/hour Maximum plates/hour Maximum glasses/hour

1080 2160

## **Logistic Information**

## **Compatible Accessories**

Kit for detergent (11) and rinse storage (11) for dishwashers 500x500

Universal basket in polypropylene 500x500

Glass basket for 500x500 mm glasswashers

#### PHOOS02

Basket in polypropylene for cutlery with 6 compartments

### WB50T02

#### **KITSONLIV**

Probe level kit

### PB50D01

Basket made of polypylene for 18 plates 500x500

### PB50T01

Polypropylene basket for 8 trays GN 1/1 h 40 mm

### PHOOS01

Single basket in polypropylene for cutlery

#### WB50PG5

Wire basket with flat bottom for 25 plastic glasses, dim. (WxDxH) 500x500x260 mm

WB50T03

Wire basket for 5 trays 600x500

### WS5

Underframe for glasswahsers 500mm

Wire basket for 5 trays 600x500

### WH00S01

Wire insert for 12 small dishes

SUITABLE FOR EURONORM TRAY

Suitable for 1/1GN trays

HTR rinsing system

Max usable height 400mm

5 STAGE FILTER

### **Benefit**

#### **Balanced door**

Effortless opening and closing

#### Effortless opening and closing

The counterbalanced door is designed to ensure smooth and effortless opening and closing, providing high user convenience. Additionally, it can be locked in a halfway position, a particularly useful feature for promoting natural drying at the end of the workday, enhancing overall hygiene and preventing the buildup of residual moisture.

#### 5-stage system

Deep cleaning and spotless washes with the patented filtration system

The innovative Smeg filtration system consists of 5 stages to completely eliminate all impurities: the 1st stage captures larger food residues; in the 2nd and 3rd stages, finer particles are captured at this filtration stage; the 4th stage features a pre-filtration grid to prevent debris from entering the tank and clouding the water. Finally, the last stage is designed to further protect the washing and draining pumps from any debris that may accidentally enter the tank during filter cleaning.

The presence sensor filter alerts if the filtration system is out of position, ensuring safe washes every time.

#### HTR System

Consistent temperatures and pressures for uniform and effective dishwashing

Thanks to the HTR system (High Temperature Rinse) and the presence of the atmospheric boiler combined with the Thermostop, the cold inlet water does not enter the boiler during rinsing, ensuring a constant temperature of 85°C. The HTR system keeps the water hot for deep sanitisation and quick drying, ensuring constant pressure for uniform and effective cleaning.

#### Moulded tank

Superior washing performance and enhanced cleaning convenience with molded tub bottoms and basket guides

Smeg dishwashers are designed with moulded tank and basket guides. The absence of sharp edges ensures an optimised wash flow, guaranteeing hygiene and impeccable cleaning performance. Furthermore, this innovative design simplifies machine cleaning, reducing the need for maintenance interventions.

### Integral double skin

Thermal and acoustic insulation guaranteed

The double wall is designed to optimise energy efficiency by reducing heat loss and accelerating water heating, resulting in lower energy consumption and faster cycle start-up times. Additionally, it provides effective acoustic insulation, helping to reduce noise and ensuring a quieter, more comfortable working environment for the staff.

### Drain pump

Partial water replacement during the wash cycle for clean and hygienic dishes

The standard drain pump, equipped with a partial water exchange system, ensures that the dirtiest water is automatically removed at every wash cycle. This mechanism allows for continuous renewal of the water used, ensuring that each phase of the washing process is carried out with clean water. The result is optimal dishwashing performance, with outstanding efficiency and an impeccable level of hygiene.

### Soft-start system

Effective management of the washing pump to protect your glassware

The Soft-Start function initiates the wash cycle gently and gradually, progressively increasing the water pressure. This system has been designed to provide optimal protection for the most fragile items, such as crystal glasses, significantly reducing the risk of chipping or damage. At the same time, it ensures excellent cleaning performance, combining efficiency and safety in every wash cycle.

#### Euronorm

Compatibility with EN 600x400 mm trays

The 500x500 traywashers offer great versatility, with the ability to wash up to 6 Euronorm 600x400 mm trays. These features make the products extremely useful for a wide range of activities, such as pizzerias, bakeries, bistros, catering, restaurants, and cafés.
