

# SPG515SL

Family	Professional dishwasher
Subfamily	Undercounter glasswashers
Line	Easyline
Basket dimensions	500x500 mm
Rinse pump	HTR system
Wash pump	Standard

## Accessories Included

Flat basket	1x WB50G02	Drain hose	Yes - 2m
Water supply hose	Yes - 1,5m		

## Target

Solutions	Coffee shops/Wine bars
-----------	------------------------

## Programs

Programs	6 automatic programs; 1 fully customizable program; Self-cleaning programs
Program options	Extra rinse; Clean water cycle
Program specifications	Boiler 71°C/Tank 60°C - 1'20"; Boiler 71°C/Tank 60°C - 2'10"; Boiler 85°C/Tank 60°C - 1'10"; Boiler 85°C/Tank 60°C - 2'; Boiler 85°C/Tank 60°C - 3'; Boiler 85°C/Tank 60°C - 4'10"; Boiler 85°C/Tank 60°C - 1'30"
Maximum basket/hour	60
Maximum dishes/hour	1080
Maximum glasses/hour	2160

## Interface

Display	8 digit	Detergent missing alert	Yes
Number of buttons	5	Cycle progress alert	Yes
On/Off button	Yes	End-cycle alert	Yes
Salt alert	Yes	Manual diagnostic	Yes

Rinse aid missing alert Yes

## Construction

Tank Construction	Deep drawn Integral double-skin	Rack guides	Embossed
Tank material	Stainless steel AISI 304	Filter	5-stage filter system
Back panel	Galvanized	Tank capacity	11 l
Balanced door	Yes	Boiler capacity	6,5 l
Upper wash system	One wash and one split rinse spray arms, stainless steel	Noise	Lpa 56,5 dBA
Lower wash system	One wash and one split rinse spray arms, stainless steel	Protection class	IPX4
Tank filter	Stainless steel	Adjustable feet	Yes
Door gasket	On 3 sides	Drain max. height	600 mm

## Technical Features

Tank heating element power	2000 W	Max water hardness	54°F - 30°dH
Boiler heating element power	6100 W	Inlet pressure	100-1000 kPa (min-max)
Wash pump power	700 W	Detergent load	1,5 l/h
Default connection	6800 W	Rinse load	0,4 l/h
Water consumption per cycle	2,3 l	Usable load height	300 mm
Minimum water consumption per cycle	2,3 l	Depth with open door	925 mm
Warm water connection	5°C	Maximum dishes diameter	300 mm
Max. inlet temperature	60°C	Product dimensions WxDxH	600x600x722 mm

## Electrical Connection

Plug	Not present	Optional electrical connection	230 V 3~ / 19 A / 7,3 kW / 50 Hz; 230 V 3~ / 19 A / 6,8 kW / 50 Hz; 230 V~ / 15 A / 3,4 kW / 50 Hz; 230 V~ / 17 A / 3,9 kW / 50 Hz; 230 V~ / 20 A / 4,5 kW / 50 Hz; 230 V~ / 22 A / 5,0 kW / 50 Hz; 400 V 3N~ / 12 A / 6,8 kW / 50 Hz
Power connection	400 V 3N~ / 12 A / 6,7 kW / 50 Hz		

## Equipments

Drain pump	Yes	Option for auto daily switch on	Yes, default OFF
Peristaltic detergent dispenser	Electronic control	Cycle counter	Yes

Peristaltic rinse-aid dispenser	Electronic control
Automatic built softener	Yes
Rinse boiler Thermostop system	Yes - default
Wash tank Thermostop system	Yes
Wash pump soft start system	Yes
Stand-by system	Yes

Partial renewal of water in the tank and built-in drain pump	Yes
Water supply pipe diameter	DN15 - ½"
Drain supply pipe diameter	DN20-G 3/4"
Detergent (red) hose lenght	2,2m
Rinse aid (blue) hose lenght	2,2m

## Compatible Accessories

### KITSONLIV

Chemical level sensor probe kit for undercounter double wall models and hoodtype models

### PHOOS01

Polypropylene single basket for cutlery

### WB50PG5

Wire basket with flat bottom for 25 plastic glasses, dim. (WxDxH) 500x500x260 mm

### WS5

Underframe for glasswashers 500mm

### PB50D01

Polypropylene basket for 18 plates Ø250 mm, dim. (WxDxH) 500x500x105 mm

### PHOOS02

6 compartment polypropylene basket for cutlery

### WH00S01

Wire insert for 12 small dishes

## Symbols glossary

---

HTR RINSING SYSTEM

5 STAGE FILTER

MAX. LOAD HEIGHT 300mm

---

## Benefit (TT)

---

### Balanced door

Effortless opening and closing

The counterbalanced door is designed to ensure smooth and effortless opening and closing, providing high user convenience. Additionally, it can be locked in a halfway position, a particularly useful feature for promoting natural drying at the end of the workday, enhancing overall hygiene and preventing the buildup of residual moisture.

### 5-stage system

Deep cleaning and spotless washes with the patented filtration system

The innovative Smeg filtration system consists of 5 stages to completely eliminate all impurities: the 1st stage captures larger food residues; in the 2nd and 3rd stages, finer particles are captured at this filtration stage; the 4th stage features a pre-filtration grid to prevent debris from entering the tank and clouding the water. Finally, the last stage is designed to further protect the washing and draining pumps from any debris that may accidentally enter the tank during filter cleaning.

The presence sensor filter alerts if the filtration system is out of position, ensuring safe washes every time.

### HTR System

Consistent temperatures and pressures for uniform and effective dishwashing

Thanks to the HTR system (High Temperature Rinse) and the presence of the atmospheric boiler combined with the Thermostop, the cold inlet water does not enter the boiler during rinsing, ensuring a constant temperature of 85°C. The HTR system keeps the water hot for deep sanitisation and quick drying, ensuring constant pressure for uniform and effective cleaning.

### Moulded tank

Superior washing performance and enhanced cleaning convenience with molded tub bottoms and basket guides

Smeg dishwashers are designed with moulded tank and basket guides. The absence of sharp edges ensures an optimised wash flow, guaranteeing hygiene and impeccable cleaning performance. Furthermore, this innovative design simplifies machine cleaning, reducing the need for maintenance interventions.

### Integrated softener

Effective water treatment for consistently sparkling glasses

The integrated continuous regeneration water softener ensures effective water treatment, enhancing washing performance and preserving the machine's operational lifespan. The resin regeneration process takes place during the wash cycle without interruptions, providing constant control over water hardness. This system prevents limescale buildup, maximises detergent efficiency, and guarantees spotless results on glassware and dishes.

### Integral double-skin

Thermal and acoustic insulation guaranteed

The double-skin design of undercounter dishwashers is engineered to optimise energy efficiency by minimising heat loss and accelerating water heating, resulting in lower energy consumption and faster start-up times. Additionally, it provides effective sound insulation, helping to reduce noise levels and ensuring a quieter, more comfortable working environment for staff.

### **Drain pump**

Partial water replacement during the wash cycle for clean and hygienic dishes

The standard drain pump, equipped with a partial water exchange system, ensures that the dirtiest water is automatically removed at every wash cycle. This mechanism allows for continuous renewal of the water used, ensuring that each phase of the washing process is carried out with clean water. The result is optimal dishwashing performance, with outstanding efficiency and an impeccable level of hygiene.

### **Soft-start system**

Effective management of the washing pump to protect your glassware

The Soft-Start function initiates the wash cycle gently and gradually, progressively increasing the water pressure. This system has been designed to provide optimal protection for the most fragile items, such as crystal glasses, significantly reducing the risk of chipping or damage. At the same time, it ensures excellent cleaning performance, combining efficiency and safety in every wash cycle.
