

SPR24UIMX

Cooker size	24"
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean
EAN code	8017709332341

Aesthetics

Serie	Professional	No. of controls	2
Colour	Stainless steel	Display	Touch
Finishing	Satin	Handle	Smeg new design with knurled handle
Command panel finish	Stainless steel	Handle Colour	Brushed stainless steel
Hob colour	Stainless steel	Storage compartment	Door
Control knobs	Smeg new design with knurled ferrule	Feet	Stainless steel

Programs / Functions

No. of cooking functions 8

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Small grill	 Large grill	 Fan grill (large)
 Fan assisted bottom	 Pizza	

Cleaning functions

 Vapor clean

Other functions

 Defrost by time

Hob options

End cooking timer 4
Minute minder 1

Limited Power Consumption Mode Yes
Multizone Option Yes

Hob technical features

Total no. of cook zones 4

Front left - 1.30 kW - Booster 1.40 kW - Ø 18.0 cm

Rear left - 2.30 kW - Booster 3.00 kW - Ø 18.0 cm

Front right - 2.30 kW - Booster 3.00 kW - Ø 14.5 cm

Rear right - 1.30 kW - Booster 1.40 kW - Ø 21.0 cm

Booster power left 3,70 kW

Multizone

Automatic switch off when overheat Yes

Automatic switch off when overflow Yes

Automatic pan detection Yes

Minimum pan diameter indication Yes

Selected zone indicator Yes

Residual heat indicator Yes

Main Oven Technical Features

No. of lights 1
Fan number 1
Gross volume, 1st cavity 2.79 cu. ft.
Cavity material Ever Clean enamel
No. of shelves 5
Light type Halogen
Light Power 40 W
Cooking time setting Minute minder
Removable door Yes
Removable inner door Yes

Total no. of door glasses 3
Cooling system Tangential
Lower heating element power 1200 W
Upper heating element - Power 1000 W
Grill element 1700 W
Large grill - Power 2700 W
Circular heating element - Power 2000 W
Grill type Electric
Soft Close system Yes

Options Main Oven

Minimum Temperature 151 °F

Maximum temperature 500 °F

Accessories included for Main Oven & Hob

Oven grid with stop, tray support 2

Electrical Connection

Plug	(B) NEMA 14-50P	Type of electric cable installed	Yes, Double phase
Circuit breaker	40 A	Power supply cable length	47 1/4 "
Voltage	208/240 V	Frequency	60 Hz

Not included accessories

SFLK1
Child lock

PRTX
Refractory pizza stone with handles. D=35cm Not suitable for microwave ovens. Suitable for gas ovens, to be put on the griddle.

GRM
Coffee machine support

KITTKSPR24
Plinth, 90cm, three sides, black, suitable for SPR cookers 24"

GTP
Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

WOKGHU
Cast iron WOK Support

SCRP
Non-scratch hob scraper - suitable for induction and ceramic hobs

PALPZ
Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

Symbols glossary (TT)

 <p>Installation in column: Installation in column</p>	 <p>Air cooling system: to ensure a safe surface temperatures.</p>
 <p>Defrost by time: Manual defrost function. At the end of the set duration, the function stops.</p>	 <p>Triple glazed doors: Number of glazed doors.</p>
 <p>ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.</p>	 <p>Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking</p>
 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>	 <p>Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.</p>
 <p>Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.</p>	 <p>Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.</p>
 <p>Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.</p>	 <p>Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.</p>
 <p>Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.</p>	 <p>Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.</p>
 <p>Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.</p>	 <p>Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.</p>

-
- | | | | |
|--|---|---|---|
|  | The inner door glass: can be removed with a few quick movements for cleaning. |  | Side lights: Two opposing side lights increase visibility inside the oven. |
|  | Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids. |  | Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out. |
|  | The oven cavity has 5 different cooking levels. |  | Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly. |
|  | Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time. |  | Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity. |
|  | 4.3 inch display with LED technology, usability with knobs + 3 touch keys |  | Automatic merge of zones for a bigger area |

Benefit (TT)

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Induction hob

Induction offers fast cooking and precise temperature control

Through the use of suitable cookware, induction is easy to use and maintain, safe and responsive

Vapor Clean

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal.

Touch control

Easy and intuitive timer setting with a single touch

Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat

Isothermic Cavity

The best cooking performance at the highest energy efficiency

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Soft close

The door is equipped with a specific system for silent closing

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Removable inner glass

Internal door glasses are easily removable for complete cleaning

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

Storage compartment

More space thanks to the lower compartment, ideal for storing accessories or cooking utensils
