

SPR30UGMX

Cooker size	30"
Hob type	Gas
Type of main oven	Thermo-ventilated
EAN code	8017709316570

Aesthetics

Serie	Professional
Colour	Stainless steel
Finishing	Satin
Command panel finish	Stainless steel
Logo	Assembled
Logo position	Facia below the oven
Hob colour	Black enamel

Type of pan stands	Cast Iron
Type of control setting	Control knobs
Control knobs	Smeg new design with knurled ferrule
Controls colour	Stainless steel
Serigraphy colour	Black
Handle	Smeg new design with knurled handle
Handle Colour	Brushed stainless steel

Programs / Functions

No. of cooking functions 8

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Small grill	 Large grill	 Fan grill (large)
 Fan assisted bottom	 Pizza	

Other functions

 Defrost by time
--

Cleaning functions

Hob technical features

Total no. of cook zones 4

Front left - 3.5 kW - 12000 BTU

Rear left - 2.9 kW - 10000 BTU

Rear right - 2.9 kW - 10000 BTU

Front right - 5.3 kW - 18000 BTU

Main Oven Technical Features

No. of lights	2	Removable inner door	Yes
Fan number	1	Total no. of door glasses	3
Gross volume, 1st cavity	4.56 cu. ft.	Cooling system	Tangential
Cavity material	Ever Clean enamel	Lower heating element power	1700 W
No. of shelves	6	Upper heating element - Power	1200 W
Type of shelves	Metal racks	Grill element	1700 W
Light type	Halogen	Large grill - Power	2900 W
Light Power	40 W	Circular heating element - Power	2700 W
Cooking time setting	Minute minder	Grill type	Electric
Removable door	Yes	Soft Close system	Yes
Full glass inner door	Yes		

Options Main Oven

Minimum Temperature	149 °F	Maximum temperature	500 °F
----------------------------	--------	----------------------------	--------

Accessories included for Main Oven & Hob

Oven grid with stop, tray support	2	Meat Probe	1
--	---	-------------------	---

Electrical Connection

Plug	(B) NEMA 14-50P	Type of electric cable installed	Yes, Double phase
Electrical connection rating	3900 W	Power supply cable length	47 1/4 "
Current	16 A	Frequency	60 Hz
Circuit breaker	20 A	Terminal block	3 poles
Voltage	208/240 V		

Not included accessories

SFLK1
Child lock

GRM
Coffee machine support

GT3T
Totally extractable telescopic guides

SMOLD
Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary (TT)

 <p>Heavy duty cast iron pan stands: for maximum stability and strength.</p>	 <p>Installation in column: Installation in column</p>
 <p>Air cooling system: to ensure a safe surface temperatures.</p>	 <p>Defrost by time: Manual defrost function. At the end of the set duration, the function stops.</p>
 <p>Triple glazed doors: Number of glazed doors.</p>	 <p>Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking</p>
 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>	 <p>Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.</p>
 <p>Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.</p>	 <p>Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.</p>
 <p>Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.</p>	 <p>Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.</p>
 <p>Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.</p>	 <p>Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.</p>
 <p>Gas ovens offer instantaneous heat control, reduced cooking times and the ability to bake at much lower temperatures than electric ovens.</p>	 <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>
 <p>The inner door glass: can be removed with a few quick movements for cleaning.</p>	 <p>Side lights: Two opposing side lights increase visibility inside the oven.</p>

The oven cavity has 6 different cooking levels.

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

Knobs control

Benefit (TT)

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Gas hob

Induction offers fast cooking and precise temperature control

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety

Touch control

Easy and intuitive timer setting with a single touch

Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat

Isothermic Cavity

The best cooking performance at the highest energy efficiency

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Soft close

The door is equipped with a specific system for silent closing

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Removable inner glass

Internal door glasses are easily removable for complete cleaning

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)
