## Symbols glossary

|            | Heavy duty cast iron pan stands: for maximum stability and strength.  | ٩        | Knobs control  |
|------------|---|----------|--|
|            | Air cooling system: to ensure a safe surface temperatures.  | *:       | Defrost by time: with this function the time of thawing of foods are determined automatically.   |
| 3          | Triple glazed doors: Number of glazed doors.  | <u> </u> | Enamel interior: The enamel interior of all Smeg<br>ovens have a special antacid lining which helps<br>keep the interior clean by reducing the amount of<br>cooking grease adhering to it.   |
| æ)         | Circogas: In gas ovens the fan distributes the<br>heat quickly and evenly throughout the oven<br>cavity, avoiding flavour transfer when cooking a<br>number of different dishes at the same time. In<br>electric ovens this combination completes cooking<br>more quickly of foods that are ready on the<br>surface, but that require more cooking inside,<br>without further browning.   | (%)      | Fan with upper and lower elements: The<br>elements combined with the fan aim to provide<br>more uniform heat, a similar method to<br>conventional cooking, so pre-heat is required.<br>Most suitable for items requiring slow cooking<br>methods.  |
| $\bigcirc$ | Upper and lower element only: a traditional<br>cooking method best suited for single items<br>located in the centre of the oven. the top pf the<br>oven will always be hottest. Ideal for roast, fruit<br>cakes, bread etc.   | *        | True European Convection: The combination of<br>the fan and circular heating element around it<br>provides many benefits, including no preheat if<br>cooking time is longer than 20 minutes, no flavor<br>transfer when cooking different foods at the same<br>time, lower energy consumption, and shorter<br>cooking times. Suitable for all types of food<br>preparations. |
| ~~~        | Grill element: Using of grill gives excellent results<br>when cooking meat of medium and small<br>portions, especially when combined with a<br>rotisserie (where possible). Also ideal for cooking<br>sausages and bacon.   | ***      | Half grill: For rapid cooking and browning of<br>foods. Best results can be obtained by using the<br>top shelf for small items, the lower shelves for<br>larger ones, such as chops or sausages. For half<br>grill heat is generated only at the centre of the<br>element, so is ideal for smaller quantities.   |
| (%)<br>(%) | Fan with grill element: The fan reduces the fierce<br>heat from the grill, providing an excellent method<br>of grilling various foods, chops, steaks, sausages<br>etc. giving even browning and heat distribution,<br>without drying out the food. The top two levels<br>recommended for use, and the lower part of the<br>oven can be used to keep items warm at the<br>same time, an excellent facility when cooking a<br>grilled breakfast. Half grill (centre portion only) is<br>ideal for small quantities of food. | ٢        | Pizza function: The simultaneous operation of<br>three elements ensures an optimum cooking<br>facility when used with the Smeg pizza stone.  |
| 旦          | All glass inner door: All glass inner door, a single<br>flat surface which is simple to keep clean.   |          | The inner door glass: can be removed with a few quick movements for cleaning.  |
| 10°<br>10° | Side lights: Two opposing side lights increase<br>visibility inside the oven.   |          | Automatic opening: some models have<br>Automatic opening door when the cycle is<br>finished which is a perfect solution for handle-less<br>kitchen units as no handle is needed. For safety<br>reasons, the door locks automatically when the<br>machine is in use to avoid it being opened<br>inadvertently.  |

| The oven cavity has 6 different cooking levels. |  |
|---|--|
|   |  |

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

...

## Benefit (TT)

#### Gas hob

Gas provides permanent control of the heat source and the temperature change is immediate

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety

#### Touch control

Easy and intuitive timer setting with a single touch

#### **True-convection**

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

#### Multilevel cooking

Several cooking levels allow maximum flexibility of use

#### Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

#### Removalble inner glass

Internal door glasses are easily removable for complete cleaning

#### **Tangential cooling**

New cooling system with tangential fan and airflow from the door to the splashback

#### Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

#### **BBQ** (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

#### Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

#### Cold door

During any function, the external door glass is cold, avoiding any risk of burns

#### AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

#### **Isothermic Cavity**

The best cooking performance at the highest energy efficiency

#### Soft close

The door is equipped with a specific system for silent closing

#### Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
