

# SPR30UIMAN

Cooker size	30"
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean
EAN code	8017709347734

## Aesthetics

Design	Square design	LED colours	Red
Front panel color	Matt black	Control knobs	Smeg new design with knurled ferrule
Command panel finish	Stainless steel	Controls colour	Stainless steel
Logo	Assembled	No. of controls	6
Colour	Matt Black	Serigraphy colour	Black
Logo position	Facia below the oven	Display	Touch
Serie	Professional	Handle	Smeg new design with knurled handle
Hob colour	Stainless steel	Handle Colour	Brushed stainless steel
Type of control setting	Control knobs		

## Programs / Functions

No. of cooking functions 8

Traditional cooking functions

Static

Fan assisted

Circulaire

Small grill

Large grill

Fan grill (large)

Fan assisted bottom

Pizza

Other functions

Defrost by time

## Cleaning functions

## Hob options

Multizone Option Yes

## Hob technical features

**Total no. of cook zones** 4

Rear left - 1.85 kW - Booster 3.00 kW

Front left - 1.85 kW - Booster 3.00 kW

Rear right - 2.30 kW - Booster 3.70 kW

Front right - 1.40 kW - Booster 2.20 kW

**No. of cooking zones with Booster** 4

**Automatic pan detection** Yes

**Number of Flexible zones** 1

**Selected zone indicator** Yes

**Booster power left Multizone** 3,70 kW

**Residual heat indicator** Yes

**Automatic switch off when overheat** Yes

## Main Oven Technical Features

**No. of lights** 2

**Total no. of door glasses** 3

**Fan number** 1

**Cooling system** Tangential

**Gross volume, 1st cavity** 4.56 cu. ft.

**Lower heating element power** 1700 W

**Cavity material** Ever Clean enamel

**Upper heating element - Power** 1200 W

**No. of shelves** 6

**Grill element** 1700 W

**Type of shelves** Metal racks

**Large grill - Power** 2900 W

**Light type** Halogen

**Circular heating element - Power** 2700 W

**Light Power** 40 W

**Grill type** Electric

**Cooking time setting** Minute minder

**Soft Close system** Yes

**Full glass inner door** Yes

## Options Main Oven

**Minimum Temperature** 151 °F

**Maximum temperature** 500 °F

## Accessories included for Main Oven & Hob

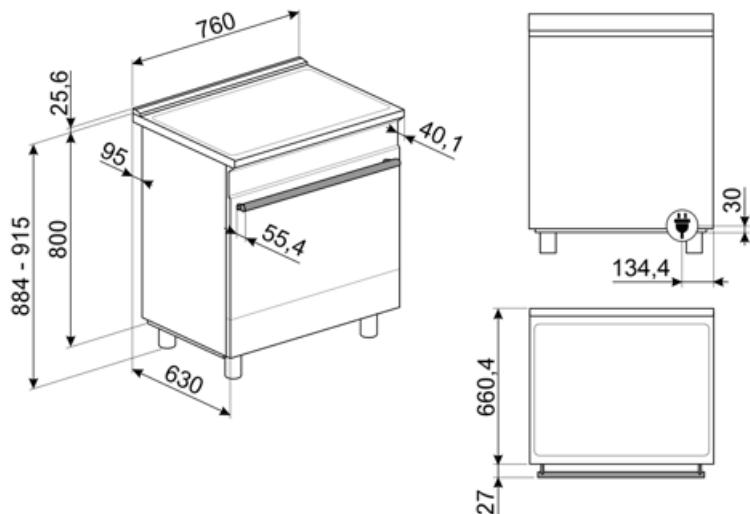

Oven grid with stop, tray support 2

Meat Probe 1

## Electrical Connection

Current 46 A  
Circuit breaker 50 A  
Voltage 208/240 V  
Type of electric cable installed Yes, Double phase

Power supply cable length 47 1/4 "  
Frequency 60 Hz  
Terminal block 3 poles

## Compatible Accessories

### AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

### BN920

Enamelled tray 90cm cavity, 20mm deep

### BBQ9

teflon-coated aluminum grid for 90 cm cavity

### GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

### BN940

Enamelled tray 90 cm, 40 mm deep

### GT3T

Totally extractable telescopic guides

### KITTKSPR30

Plinth, 90cm, three sides, black, suitable for SPR cookers 30"

### PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

### SCRP

Non-scratch hob scraper - suitable for induction and ceramic hobs

### SFLK1

Child lock

### STONE2

Rectangular pizza stone without handles, suitable for 45cm and 60cm wide ovens. Dimensions W42 x H1.8 x D37.5cm. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits

### TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

## Symbols glossary

	Automatic merge of zones for a bigger area		Power booster: option allows the zone to work at full power when very intense cooking is necessary.
	Knobs control		Air cooling system: to ensure a safe surface temperatures.
	Defrost by time: Manual defrost function. At the end of the set duration, the function stops.		4.3 inch display with LED technology, usability with knobs + 3 touch keys
	Triple glazed doors: Number of glazed doors.		Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
	Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.		Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.
	Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.		Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
	Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.		Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

The oven cavity has 6 different cooking levels.

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.
