# **Compatible Accessories**

#### **AIRFRY**

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

#### AL60

Upstand suitable for 60 cm Concert cookers with gas hob

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

#### BG6090-1

Cast iron grill plate suitable for Concert cookers

#### BN620-1

Enamelled tray, 20mm deep

#### **BN640**

Enamelled tray, 40mm deep

#### BNP608T

Teflon-coated tray, 8mm depth, to be placed on the grid

#### **GTP**

\*\*Partially extractable telescopic guides (1 level)\*\* Extraction: 300 mm Material: Stainless steel AISI 430 polished

### **GTT**

\*\*Totally extractable telescopic guides (1 level)\*\* Extraction: 433 mm Material: Stainless steel AISI 430 polished

#### KITH95

Height extension kit (950 mm), stainless steel

#### KITP60X9

Splashback, 90 cm, stainless steel, suitable for pyrolytic Concert cookers

#### **KITPDQ**

Height reduction feet (850 mm), stainless steel, for cookers

#### **PALPZ**

Pizza shovel with fold away handle width: 315mm length: 325mm

#### SFLK1

Child lock

#### **SMOLD**

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

#### **STONE**

Rectangular refractory stone. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits Dimensions:L42 x H1,8 x P37.5 cm.

# Symbols glossary

Α	A(*** ↑ D

A: Product drying performance, measured from A+++ to D / G depending on the product family

Heavy duty cast iron pan stands: for maximum stability and strength.

Installation in column: Installation in column

Air cooling system: to ensure a safe surface temperatures.

Triple glazed doors: Number of glazed doors.

Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.

Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.

Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.

Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.

ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.

Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

The oven cavity has 5 different cooking levels.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.
