## Symbols glossary

Aquatest measures the clarity of the water during an auto program, and automatically ensures the minimum consumption of water and energy.

COMM\_HEIGHT\_82\_72dpi

Delay Timer: The delay timer can postpone the start of the program by up to 24 hours.

Enersave: At the end of the drying cycle a special device slowly automatically opens the door a few centimeters, to ensure perfect drying and to save up to 20% of energy on some models.

FlexiDuo: The FlexiDuo 3rd cutlery basket allows you to arrange cutlery or small cups, ladles, or bulky utensils however you like: it consists of two separate and moveable modules.

FlexiZone: The ½ load flexizone allows you to wash a reduced load saving energy, water and time and there are no restrictions on where the items are placed.

The new ExtraGlide guide system, available on top of the range models, makes the second basket even smoother and softer. In fact, it facilitates the extraction of the introduction, even at full load and, for the greater excursion, the insertion of crockery is also facilitated in the rear part

Noise Level: Excellent insulation and special devices keep noise to a minimum.

PLANETARIUM\_WASHING\_SYSTEM\_72dpi

Delicate: Delicate washing program is designed for delicate dishes which are not heavily soiled.

Delicate: Delicate washing program is designed for delicate dishes which are not heavily soiled.

Normal programme: The normal programme is suitable for normal degrees of dirt for everyday

Soak programme: The soak programme provides a rinse to prevent dirt from drying.

Rapid 27 Mins: The rapid 27 mins quick program takes just 27 minutes to wash a load.

The symbols show the number of plate settings of the dishwasher.

Total Acquastop: In addition to the partial Acquastop protection present in all Smeg dishwashers, some models have an electronic device fitted to the water intake hose, which monitors water levels in the machine, detects leaks in the hose and switches off the water supply immediately when necessary.
