| Water verbruik (per cyclus)                                     | 8,5 litres | Energy efficiency Index (EEI)    | 43,8             |

## Elektrische aansluiting

**Stekker** (F;E) Schuko  
**Aansluitwaarde** 1800 W  
**Stroom** 10 A  
**Spanning** 220-240 V

**Frequentie** 50 Hz  
**Type aansluiting** Single-phase  
**Lengte voedingskabel** 140 cm

## Accessoires niet inbegrepen

### KITPL60N

Toekick Kit in zwarte kleur met verstelbare hoogte en diepte. Kan worden geïnstalleerd over alle volledig geïntegreerde modellen en onderbouw modellen met variabel draaipunt of flexifit-scharnieren.

### KITPL60B

Toekick Kit in witte kleur met verstelbare hoogte en diepte. Kan worden geïnstalleerd over alle volledig geïntegreerde modellen en modellen onderbouw met variabel draaipunt of flexifit-scharnieren.

### KITGH

Kit glazen houder. Deze moet op de eerste mand worden gemonteerd, maar alleen als er inklapbare rekken zijn

### KITPL60X

Toekick Kit in roestvrij staal met verstelbare hoogte en diepte. Kan worden gemonteerd over alle volledig geïntegreerde modellen en onderbouw modellen met variabel draaipunt of flexifit-scharnieren.

### KITPLV2

Kit verlengstuk voor vaatwasser en wasmachine: lengte 2 mtr.

|    | Activelight is een led die een rode stip projecteert op de vloer onder de vaatwasser als het apparaat in gebruik is                                                                                                                                                                                          |    | Aquatest meet de helderheid van het water tijdens een automatisch programma en zorgt automatisch voor een minimaal verbruik van water en energie             |
|    | To improve the drying of dishes without leaving stains.                                                                                                                                                                                                                                                      |    | 82 cm high                                                                                                                                                   |
|    | Vertragingstimer: De uitgestelde timer kan de start van het programma tot 24 uur uitstellen.                                                                                                                                                                                                                 |    | Energy efficiency class C                                                                                                                                    |
|    | The Dry Assist + option, in addition to saving energy, ensures perfect drying of the dishes by opening the door automatically at the end of the washing cycle.                                                                                                                                               |    | FlexiZone: The ½ load flexizone allows you to wash a reduced load saving energy, water and time and there are no restrictions on where the items are placed. |
|    | The ExtraGlide guides system makes the second basket run even smoother and softer. It facilitates movement even when fully loaded, and thanks to the increased excursion, facilitates the insertion of dishes into the basket.                                                                               |    | Noise Level: Excellent insulation and special devices keep noise to a minimum.                                                                               |
|  | The Planetarium washing system, with high rotations per minute, guarantees complete coverage of the tank, thanks to the simultaneous rotation of base and sprayers, and excellent washing results.                                                                                                           |  | Auto 45°- 65°: The auto programme regulates the length of a cycle depending on the need for a pre-wash and the number of rinses required.                    |
|  | Crystals: The Crystals programme is dedicated to delicate dishes such as glasses and china.                                                                                                                                                                                                                  |  | Eco: Eco, this economic wash programme uses a low amount of water and energy in order to provide the most environmentally friendly cleaning option.          |
|  | Mix: The Mix programme is suitable for mixed crockery and everyday pots and pans, without any particular incrustation.                                                                                                                                                                                       |  | Soak programme: The soak programme provides a rinse to prevent dirt from drying.                                                                             |
|  | Express 27': The Express 27' programme is a quick wash cycle, at low temperatures, for lightly soiled dishes.                                                                                                                                                                                                |  | Ultraclean: The Ultraclean option performs a final rinse at a high temperature of 70°C eliminating virtually all bacteria.                                   |
|  | 13 place settings: Number of place settings.                                                                                                                                                                                                                                                                 |  | Quick wash cycle for normally soiled mixed loads such as dishes and pans, even with dried-on residues. Dishes are washed and dried in 60 minutes.            |
|  | Total Acquastop: In addition to the partial Acquastop protection present in all Smeg dishwashers, some models have an electronic device fitted to the water intake hose, which monitors water levels in the machine, detects leaks in the hose and switches off the water supply immediately when necessary. |  | System WaterSave ensures the best washing results with minimal water consumption depending on the model of dishwasher.                                       |

Dishwasher cleaning cycle. The cycle should be started with the machine empty, without dishes. It is recommended to run the program every 2-3 months, using special dishwasher detergents.

Allows you to enable additional programs when selected together with any wash cycle. After having selected the required wash cycle, press the button (

**SILENT:** Wash cycle suitable for normally soiled dishes, even with dried-on residues. Ensures maximum noise reduction and is therefore ideal if you wish to run it during the night.

**HYGIENE 99.9%** High-temperature washing programme. The 75° rinse guarantees the removal of 99.9% of germs and bacteria.
