# **Compatible Accessories**

### **AIRFRY**

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

### BN620-1

Enamelled tray, 20mm deep

### **BNP608T**

Teflon-coated tray, 8mm depth, to be placed on the grid

\*\*Totally extractable telescopic guides (1 level)\*\* Extraction: 433 mm Material: Stainless steel AISI 430 polished

#### KITPC92X9

Splash back, 90x60 cm, stainless steel, for Concert cookers, double pyrolitic cavity

### **PALPZ**

Pizza shovel with fold away handle width: 315mm length: 325mm

### SFLK1

Child lock

### **STONE**

Rectangular refractory stone. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits Dimensions:L42 x H1,8 x P37,5 cm

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

### **BN640**

Enamelled tray, 40mm deep

### **GTP**

\*\*Partially extractable telescopic guides (1 level)\*\* Extraction: 300 mm Material: Stainless steel AISI 430 polished

#### KITH95

Height extension kit (950 mm), stainless steel

### **KITPDO**

Height reduction feet (850 mm), stainless steel, for cookers

### **SCRP**

Induction and ceramic hobs and teppanyaki scraper

### **SMOLD**

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

# Symbols glossary

Symbols glossary			
A F	A: Product drying performance, measured from A+++ to D / G depending on the product family		Installation in column: Installation in column
φ	Knobs control		Air cooling system: to ensure a safe surface temperatures.
<b>3</b>	Triple glazed doors: Number of glazed doors.		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
₩)	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.	<b>®</b>	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.
	Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.	$\bigcup$	Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.
<b>®</b>	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.	ECO	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.	***	Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
ģ	Light		Glass ceramic: The base of the hob is made glass ceramic. Heating is performed by the heating elements Hi-Light.
旦	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.
Ö	Side lights: Two opposing side lights increase visibility inside the oven.	<b>}-</b> {	Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.
.4	The oven cavity has 4 different cooking levels.	.5	The oven cavity has 5 different cooking levels.

SMEG SPA 16/09/2025

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 °C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.

## **Benefit**

### Hob type ceramic

Ceramic hobs offers fast cooking and precise temperature control

### Vapor Clean

Smeg's Vapor Clean function, is an assisted steam clean program designed to help loosen food residue and spills inside the oven for easy cleaning

Smeg's Vapor Clean function, is an assisted steam clean program designed to help loosen food residue and spills inside the oven for easy cleaning

### **Buttons control**

Easy and intuitive timer setting with a simple buttons

### Circulaire

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

### Multilevel cooking

Several cooking levels allow maximum flexibility of use

### Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

### Removalble inner glass

Internal door glasses are easily removable for complete cleaning

### Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

### Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

### **Isothermic Cavity**

The best cooking performance at the highest energy efficiency

### AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

### Cold door

During any function, the external door glass is cold, avoiding any risk of burns

# Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

# BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

# Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
