Symbols glossary

 <p>Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>	 <p>Energy efficiency class A</p>
 <p>Installation in column: Installation in column.</p>	 <p>B: Product energy rating, measured from A+++ to D / G depending on the product family.</p>
 <p>Air cooling system: to ensure a safe surface temperatures.</p>	 <p>Defrost by time: Manual defrost function. At the end of the set duration, the function stops.</p>
 <p>Double glazed doors: Number of glazed doors.</p>	 <p>Triple glazed doors: Number of glazed doors.</p>
 <p>ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.</p>	 <p>Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.</p>
 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>	 <p>Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.</p>
 <p>Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.</p>	 <p>Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.</p>
 <p>ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.</p>	 <p>Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p>

-  Light
-  Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.
-  All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
-  Side lights: Two opposing side lights increase visibility inside the oven.
-  Plate rack warming: function for heating or keeping dishes warm. Place the baking tray on the lowest shelf and stack the dishes to be heated.
-  The oven cavity has 2 different cooking levels.
-  The oven cavity has 4 different cooking levels.
-  The oven cavity has 9 different cooking levels.
-  Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.
-  Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.
-  Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.
-  Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.
-  The capacity indicates the amount of usable space in the oven cavity in litres.

Benefit (TT)

Induction hob

Induction offers fast cooking and precise temperature control

Through the use of suitable cookware, induction is easy to use and maintain, safe and responsive.

Vapor Clean

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal.

Buttons control

Easy and intuitive timer setting with a simple buttons

True-convection

The best cooking performances guaranteed by ventilated circular flow

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Telescopic guides

Easy extraction and safe insertion of trays into the oven thanks to telescopic guides

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Isothermic Cavity

The best cooking performance at the highest energy efficiency

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket (optional accessory)

BBQ (optional accessory)

Barbecue cooking directly in the oven with the double-sided grill (BBQ optional accessory)

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
