Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BBQ9

teflon-coated aluminum grid for 90 cm cavity

BGTR9

Cast iron grill plate suitable for 90 cm and 100cm Victoria, 60 and 90cm Master and Symphony cookers

BN920

Enamelled tray 90cm cavity, 20mm deep

BN940

Enamelled tray 90 cm, 40 mm deep

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

KIT1TR9N

Splashback, 90x75 cm suitable for TR9 Victoria cookers, black

KITHTR90

Height extension kit (950 mm), suitable for Victoria TR90 cookers

KITROT9

Rotisserie kit for 90x60 cookers, new cavity (115 L)

PALPZ

Pizza shovel with fold away handle width: 315mm length: 325mm

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

Symbols glossary			
	Heavy duty cast iron pan stands: for maximum stability and strength.	C,	Catalytic cleaning: the system ensures perfect hygiene inside the oven thanks to the three self-cleaning panels coated with a special enamel that promotes the progessive elimination of traces of grease and odors caused by cooking.
A †	A: Product drying performance, measured from A+++ to D / G depending on the product family		Installation in column: Installation in column
	Air cooling system: to ensure a safe surface temperatures.	***	Defrost by time: with this function the time of thawing of foods are determined automatically.
	Triple glazed doors: Number of glazed doors.		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
*)	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.	(%)	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.
	Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.)	Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.
®	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.	ECO	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.		Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is

Rotisserie: The rotisserie (where installed) works

in combination with the grill element to brown

foods to perfection.

grilled breakfast. Half grill (centre portion only) is

All glass inner door: All glass inner door, a single

flat surface which is simple to keep clean.

ideal for small quantities of food.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

The oven cavity has 5 different cooking levels.

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.
