

TR90GPBL

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Gas
Type of main oven	Thermo-ventilated
Cleaning system main oven	Pyrolitic
EAN code	8017709345129
Energy efficiency class	A+

Aesthetics

Design	Victoria	Controls colour	Stainless steel
Command panel finish	Enamelled metal	No. of controls	8
Aesthetic	Victoria	Serigraphy colour	Silver
Logo	assembled 50's	Display name	Electronic 5 buttons
Colour	Black	Door	With frame
Logo position	Upstand+ Command panel	Glass type	Black
Finishing	Glossy	Handle	Smeg Victoria
Upstand	Yes	Handle Colour	Polished chrome
Hob colour	Black enamel	Storage compartment	Push pull
Type of pan stands	Cast Iron	Feet color	none
Type of control setting	Control knobs	Plinth	Black
hob			
Type of control knobs	Smeg Victoria		

Programs / Functions main oven

No. of cooking functions	9
Traditional cooking functions	

 Static	 Fan assisted	 Circulaire
 Turbo	 Eco	 Small grill
 Large grill	 Fan grill (large)	 Fan assisted base

Cleaning functions

Pyrolytic

Hob technical features

Total no. of cook zones 5

Front left - Gas - Rapid - 2.90 kW
 Rear left - Gas - Semi Rapid - 1.80 kW
 Central - Gas - 2UR (dual) - 5.00 kW
 Rear right - Gas - Semi Rapid - 1.80 kW
 Front right - Gas - AUX - 1.00 kW

Type of gas burners Standard
 Automatic electronic ignition Yes

Gas safety valves Yes
 Burner caps Matt black enamelled

Main Oven Technical Features

No. of lights	2	Total no. of door glasses	4
Fan number	2	No. of thermo-reflective door glasses	2
Net volume of the cavity	115 l	Safety Thermostat	Yes
Gross volume, 1st cavity	129 l	Cooling system	Tangential
Cavity material	Ever Clean enamel	Door Lock During Pyrolysis	Yes
No. of shelves	5	Usable cavity space dimensions (HxWxD)	371x724x418 mm
Type of shelves	Metal racks	Temperature control	Electro-mechanical
Light type	Halogen	Lower heating element power	1700 W
Light Power	40 W	Upper heating element - Power	1200 W
Cooking time setting	Start and Stop	Grill element	1700 W
Light when oven door is open	Yes	Large grill - Power	2900 W
Door opening	Flap down	Circular heating element - Power	2 x 2000 W
Removable door	Yes	Grill type	Electric
Full glass inner door	Yes	Soft Close system	Yes
Removable inner door	Yes		

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	260 °C

Accessories included for Main Oven & Hob

Cast iron wok support	1	20mm deep tray	1
Moka stand in cast iron	1	40mm deep tray	1
Rack with back and side stop	1	Grill mesh	1

Electrical Connection

Electrical connection rating	4200 W	Additional connection modalities	Double and Three Phase
Current	19 A	Frequency	50/60 Hz
Voltage	220-240 V	Terminal block	5 poles
Voltage 2 (V)	380-415 V	Plug	Not present
Electric cable	Installed, Single phase		

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BBQ9

teflon-coated aluminum grid for 90 cm cavity

BN920

Enamelled tray 90cm cavity, 20mm deep

BN940

Enamelled tray 90 cm, 40 mm deep

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

KIT1TR9N

Splashback black, 90cm ,suitable for TR90 and TR93 Victoria cookers

KITH95CPF9

Height extension kit with plinth, (950mm), three sides, black with feet, suitable for CPF9 Portofino and Sinfony C9 cookers

PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

SFLK1

Child lock

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

	Heavy duty cast iron pan stands: for maximum stability and strength.		A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.
	Installation in column: Installation in column.		Air cooling system: to ensure a safe surface temperatures.
	Quadruple glazed: Number of glazed doors.		Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
	Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.		Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.
	ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.		Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.
	Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.		Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

 Turbo: the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.	 All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
 The inner door glass: can be removed with a few quick movements for cleaning.	 Side lights: Two opposing side lights increase visibility inside the oven.
 Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.	 PYROLYSIS - AUTOMATIC CLEANING FUNCTION: the oven heats up to a temperature approaching 500 ° C and chars grease and food residues into a fine ash that can be easily wiped off with a damp cloth. At such a high temperature, the door locks automatically for safety, while the temperature of the door remains controlled so it is safe to touch User adjustable function based on the level of dirt present in the oven.
 The oven cavity has 5 different cooking levels.	 Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.
 Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.	 The capacity indicates the amount of usable space in the oven cavity in litres.
 Knobs control
