TR90IMBL

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean
EAN code	8017709340643
Energy efficiency class	A

Aesthetics

Design	Victoria	**Controls colour**	Stainless steel
Command panel finish	Enamelled metal	**No. of controls**	7
Aesthetic	Victoria	**Serigraphy colour**	Silver
Logo	assembled 50's	**Display name**	Electronic 5 buttons
Colour	Black	**Door**	With frame
Logo position	Upstand+ Command panel	**Glass type**	Black
Finishing	Glossy	**Handle**	Smeg Victoria
Upstand	Yes	**Handle Colour**	Polished chrome
Hob colour	Black enamel	**Storage compartment**	Push pull
Type of control setting hob	Control knobs	**Feet color**	none
		Plinth	Anthracite
Hob LED colours	Red		
Type of control knobs	Smeg Victoria		

Programs / Functions main oven

No. of cooking functions 9

Traditional cooking functions

- Static
- Fan assisted
- Circulaire
- Eco
- Small grill
- Large grill
- Fan grill (large)
- Base
- Fan assisted base

Other functions

Defrost by time

Cleaning functions

Vapor clean

Hob options

Control lock	Yes
Limited Power Consumption Mode	Yes
Limited Power Consumption Mode in W	3700, 4800, 7400 W

Hob technical features

Total no. of cook zones 5

Front left - Induction - single - 1.30 kW - Booster 1.40 kW - Ø 18.0 cm
Rear left - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm
Central - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 27.0 cm
Rear right - Induction - single - 1.30 kW - Booster 1.40 kW - Ø 18.0 cm
Front right - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm

Automatic switch off when overheat	Yes	**Minimum pan diameter indication**	Yes
Automatic pan detection	Yes	**Selected zone indicator**	Yes

Main Oven Technical Features

No. of lights	2	**Removable inner door**	Yes
Fan number	2	**Total no. of door glasses**	3
Net volume of the cavity	115 l	**No.of thermo-reflective door glasses**	2
Gross volume, 1st cavity	129 l	**Safety Thermostat**	Yes
Cavity material	Ever Clean enamel	**Cooling system**	Tangential
No. of shelves	5	**Usable cavity space dimensions (HxWxD)**	371x724x418 mm
Type of shelves	Metal racks	**Temperature control**	Electro-mechanical
Light type	Halogen	**Lower heating element power**	1700 W
Light Power	40 W	**Upper heating element - Power**	1200 W
Cooking time setting	Start and Stop	**Grill element**	1700 W
Light when oven door is open	Yes	**Large grill - Power**	2900 W
Door opening	Flap down		
Removable door	Yes		
Full glass inner door	Yes		

Circular heating element - Power	1550 W
Grill type	Electric
Soft Close system	Yes

Options Main Oven

Timer	Yes	**Minimum Temperature**	50 °C
End of cooking acoustic alarm	Yes	**Maximum temperature**	260 °C

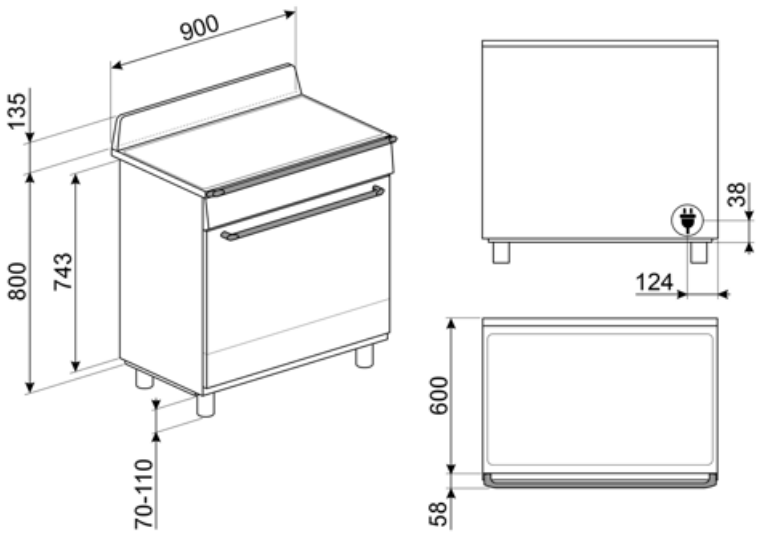

Accessories included for Main Oven & Hob

Rack with back and side stop	1	**Grill mesh**	1
20mm deep tray	1	**Telescopic Guide rails, partial Extraction**	1
40mm deep tray	1		

Electrical Connection

Electrical connection rating	10600 W	**Additional connection modalities**	Double and Three Phase
Current	46 A	**Frequency**	50/60 Hz
Voltage	220-240 V	**Terminal block**	5 poles
Voltage 2 (V)	380-415 V	**Plug**	Not present
Electric cable	Installed, Single phase

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BN920

Enamelled tray 90cm cavity, 20mm deep

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

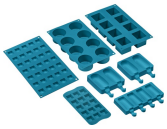

KITH95CPF9

Height extension kit with plinth, (950mm), three sides, black with feet, suitable for CPF9 Portofino and Sinfony C9 cookers

SCRP

Non-scratch hob scraper - suitable for induction and ceramic hobs

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

BBQ9

teflon-coated aluminum grid for 90 cm cavity

BN940

Enamelled tray 90 cm, 40 mm deep

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

KIT1TR9N

Splashback black, 90cm ,suitable for TR90 and TR93 Victoria cookers

PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

SFLK1

Child lock

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

Colour: Cream

TR90IMGR

Colour: Slate Grey

Symbols glossary

Energy efficiency class A

Installation in column: Installation in column.

Defrost by time: Manual defrost function. At the end of the set duration, the function stops.

ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.

Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.

Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Air cooling system: to ensure a safe surface temperatures.

Triple glazed doors: Number of glazed doors.

Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.

Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.

Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner.

ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

The oven cavity has 5 different cooking levels.

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.
