

TRA90GPGR

Cooker size	90x60 cm
Hob type	Gas
Type of main oven	Thermoseal
Cleaning system main oven	Pyrolitic
EAN code	8017709345167

Aesthetics

Aesthetic	Victoria	Controls colour	Stainless steel
Design	Victoria	No. of controls	8
Colour	Slate Grey	Serigraphy colour	Silver
Finishing	Glossy	Display	electronic 5 buttons
Command panel finish	Enamelled metal	Door	With frame
Logo	assembled 50's	Glass type	Black
Logo position	Upstand+ Command panel	Handle	Smeg Victoria
Upstand	Yes	Handle Colour	Polished chrome
Hob colour	Black enamel	Storage compartment	Push pull
Type of pan stands	Cast Iron	Feet	none
Type of control setting	Control knobs	Plinth	Black
Control knobs	Smeg Victoria		

Programs / Functions

No. of cooking functions	9
Traditional cooking functions	

 Static	 Fan assisted	 Circulaire
 Turbo	 Eco	 Small grill
 Large grill	 Fan grill (large)	 Fan assisted bottom

Cleaning functions

Pyrolytic

Hob technical features

Total no. of cook zones 5

Front left - Gas - Rapid - 2.90 kW

Rear left - Gas - Semi Rapid - 1.80 kW

Central - Gas - 2UR (dual) - 5.00 kW

Rear right - Gas - Semi Rapid - 1.80 kW

Front right - Gas - AUX - 1.00 kW

Type of gas burners Standard

Automatic electronic ignition Yes

Gas safety valves Yes

Burner caps Matte black enamelled

Main Oven Technical Features

No. of lights

2

Fan number

2

Net volume of the cavity 115 l

Gross volume, 1st cavity 129 l

Cavity material Ever Clean enamel

No. of shelves

5

Type of shelves

Metal racks

Light type

Halogen

Light Power

40 W

Cooking time setting Start and Stop

Light when oven door is open Yes

Door opening Flap down

Removable door Yes

Full glass inner door Yes

Removable inner door Yes

Total no. of door glasses 4

No. of thermo-reflective door glasses 2

Safety Thermostat Yes

Cooling system Tangential

Door Lock During Pyrolysis Yes

Usable cavity space dimensions (HxWxD) 371x724x418 mm

Temperature control Electro-mechanical

Lower heating element power 1700 W

Upper heating element - Power 1200 W

Grill element 1700 W

Large grill - Power 2900 W

Circular heating element - Power 2 x 2000 W

Grill type Electric

Soft Close system Yes

Options Main Oven

Timer Yes

End of cooking acoustic alarm Yes

Minimum Temperature 50 °C

Maximum temperature 280 °C

Accessories included for Main Oven & Hob

Cast iron wok support	1	20mm deep tray	1
Moka stand in cast iron	1	40mm deep tray	1
Rack with back and side stop	1	Grill mesh	1

Electrical Connection

Plug	(I) Australia	Type of electric cable installed	Yes, Single phase
Electrical connection rating	4200 W	Type of electric cable	Yes, Double and Three Phase
Current	18 A	Frequency	50 Hz
Voltage	220-240 V	Terminal block	5 poles
Voltage 2 (V)	380-415 V		

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BN920

Enamelled tray 90cm cavity, 20mm deep

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

KIT1TR9N

Splashback, 90x75 cm suitable for TR9 Victoria cookers, black

PPR9

Refractory pizza stone without handles. Squared shaped stone: L64xH2,3xP37,5 cm Suitable also for gas ovens, to be put on the griddle.

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

BBQ9

teflon-coated aluminum grid for 90 cm cavity

BN940

Enamelled tray 90 cm, 40 mm deep

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

SFLK1

Child lock

Symbols glossary

	Heavy duty cast iron pan stands: for maximum stability and strength.		Knobs control
	Air cooling system: to ensure a safe surface temperatures.		Quadruple glazed: Number of glazed doors.
	Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.		Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.
	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.		Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.
	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.		ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.		Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
	Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower two part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.		Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.
	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

Pyrolytic: Pyrolytic cleaning cycles can be selected as necessary to automatically clean the oven interior.

The oven cavity has 5 different cooking levels.

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

The capacity indicates the amount of usable space in the oven cavity in litres.

Benefit (TT)

Gas hob

Induction offers fast cooking and precise temperature control

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety

Pyrolysis

Easy oven cleaning thanks to special pyrolytic function

Buttons control

Easy and intuitive timer setting with a simple buttons

Push-pull storage compartment

More space thanks to the lower push-pull compartment, ideal for storing accessories or cooking utensils

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Removable inner glass

Internal door glasses are easily removable for complete cleaning

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

Isothermic Cavity

The best cooking performance at the highest energy efficiency

Soft close

The door is equipped with a specific system for silent closing

Double Turbine

The oven has two fans equipped with two circular heating elements allowing cooking with rotating heat
