Symbols glossary (TT)

	Heavy duty cast iron pan stands: for maximum stability and strength.		Air cooling system: to ensure a safe surface temperatures.
	Defrost by time: Manual defrost function. At the end of the set duration, the function stops.		Triple glazed doors: Number of glazed doors.
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking		Gas ovens offer instantaneous heat control, reduced cooking times and the ability to bake at much lower temperatures than electric ovens.
	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.
	The oven cavity has 4 different cooking levels.		Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.
	The capacity indicates the amount of usable space in the oven cavity in litres.
