

# TRU36GMDGM

Cooker size	36"
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean
EAN code	8017709280093

## Aesthetics

Design	Victoria	Type of control setting	Control knobs
Command panel finish	Stainless steel	Control knobs	Smeg Victoria
Aesthetic	Victoria	Controls colour	Stainless steel
Logo	Silk screen	No. of controls	8
Colour	Decorated / Special	Serigraphy colour	Silver
Logo position	Command panel	Display	Touch
Decoration / Special colour	Maiolica	Door	With frame
Finishing	Glossy	Glass type	Stopsol
Upstand	Yes	Handle	Smeg Victoria
Serie	Divina Cucina	Handle Colour	Polished chrome
Collaborations	Smeg & Dolce&Gabbana	Storage compartment	Drawer
Hob colour	Black enamel	Feet	none
Type of pan stands	Cast Iron	Plinth	Anthracite

## Programs / Functions

No. of cooking functions	7
--------------------------	---

## Traditional cooking functions

Static

Fan assisted

Circulaire

Small grill

Large grill

Fan grill (large)

Base

## Other functions

Defrost by time

## Hob technical features

### Total no. of cook zones 5

Front left - Gas - Rapid - 2.80 kW - 9500 BTU

Rear left - Gas - Semi Rapid - 1.80 kW - 6000 BTU

Central - Gas - 2UR (dual) - 5.30 kW - 18000 BTU

Rear right - Gas - Semi Rapid - 1.80 kW - 6000 BTU

Front right - Gas - AUX - 1.00 kW - 3500 BTU

Type of gas burners Standard

Gas safety valves

Yes

Automatic electronic ignition Yes

Burner caps

Matt black enamelled

## Main Oven Technical Features

No. of lights

2

Fan number

3

Net volume of the cavity 4.20 cu. ft.

Gross volume, 1st cavity 4.45 cu. ft.

Cavity material Ever Clean enamel

No. of shelves 5

Type of shelves Metal racks

Light type Halogen

Light Power 40 W

Cooking time setting Start and Stop

Light when oven door is open Yes

Door opening Flap down

Removable door Yes

Full glass inner door Yes

Removable inner door Yes

Total no. of door glasses 3

No. of thermo-reflective door glasses 2

Safety Thermostat Yes

Cooling system Tangential

Usable cavity space dimensions (HxWxD) 340x750x427 "

Temperature control Electro-mechanical

Lower heating element power 1700 W

Upper heating element - Power 1200 W

Grill element 1700 W

Large grill - Power 2900 W

Circular heating element - Power 1550 W

Grill type Electric

Soft Close system Yes

## Options Main Oven

Timer	Yes	Minimum Temperature	122 °F
End of cooking acoustic alarm	Yes	Maximum temperature	500 °F

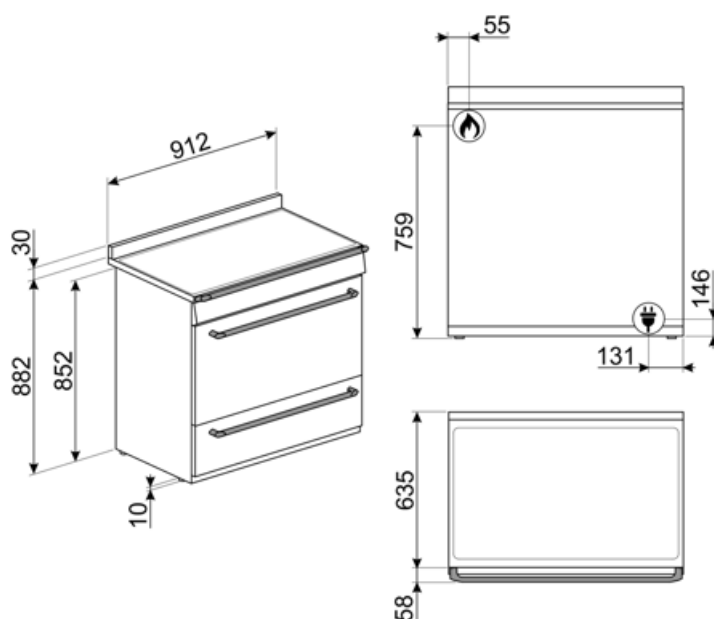

## Accessories included for Main Oven & Hob

Cast iron wok support	1	40mm deep tray	1
Moka stand in cast iron	1	Telescopic Guide rails, total Extraction	1
TOP Oven grid with back stop	2		

## Electrical Connection

Electrical connection rating	3300 W	Power supply cable length	47 1/4 "
Current	15 A	Frequency	60 Hz
Voltage	120-240 V	Terminal block	5 poles
Voltage 2 (V)	120/208 V	Plug	(B) USA 120V

---

## Compatible Accessories

---

### **BGTR9**

Cast iron grill plate suitable for 90 cm Victoria, 60 and 90 cm Master and Sinfonia cookers

### **PALPZ**

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

### **WOKGHU**

Cast iron WOK Support

## Symbols glossary

	Triple Fan Technology: The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.		Heavy duty cast iron pan stands: for maximum stability and strength.
	Installation in column: Installation in column		Knobs control
	Air cooling system: to ensure a safe surface temperatures.		Defrost by time: Manual defrost function. At the end of the set duration, the function stops.
	4.3 inch display with LED technology, usability with knobs + 3 touch keys		Triple glazed doors: Number of glazed doors.
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking		Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
	Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.		Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.
	Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.		Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

	Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.		Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.
	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.
	Side lights: Two opposing side lights increase visibility inside the oven.		Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.
	The oven cavity has 5 different cooking levels.		Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.
	Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.		Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.
	Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.		The capacity indicates the amount of usable space in the oven cavity in litres.
