# Symbols glossary

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

Energy efficiency class E

guaranteed.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even

A++: Energy efficiency class A++ helps to save up

to 20% energy compared to class A. Maximum

performance with minimum consumption is

temperature distribution within the fridge.

Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.

Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.
