|--|---|---|---|
|  | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.   |  | LED display: to show programmes, functions and options selected and the time to the end of the cycle.                 |
|  | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.  |  | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance. |
|  | Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption. |  | Built-in niche  |
