

UW5757D

| | |
|-------------------|------------------------------------------------------------|
| Family | Professional dishwasher |
| Subfamily | Utensil washer |
| Type | Utensilwasher |
| Crockery | Crockery; Cutlery; EN 600x400 trays; GN1/1 trays; Utensils |
| Basket dimensions | 570x570 mm |
| Rinse pump | HTR system |
| Wash pump | Standard |
| Power connection | 400 V 3N~ / 22,7 A / 9,0 kW / 50 Hz |

Target

| | |
|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Industries | Hotels; Ristoranti / Catering; Bakeries / Pastry shops; Butcher shops / Delicatessens; Food Industries; Catering; Care facilities ; Commercial food services; Grocery shops / Food retail |
|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Aesthetics

| | |

| Led color | Red |
|-----------|-----|

Technical Features

| | | | |
|-------------------------------------|-------------|-------------------------------|-----------------|
| Trays washing option | Yes | Detergent load | 1,5 l/h |
| Water consumption per cycle | 5 l | Rinse load | 0,4 l/h |
| Wash temperature (min-max) | 60 °C | Usable load height | 650 mm |
| Rinse temperature (min-max) | 78°C | Height open door | 1985 mm |
| Minimum water consumption per cycle | 1,8 l | Depth with open door | 1110 mm |
| Min. water connection temperature | 5°C | Maximum height no-basket wash | 650 mm |
| Max. inlet temperature | 60°C | Product dimensions WxDxH | 685x750x1710 mm |
| Max water hardness | 12°f - 7°dH | | |

Programs

| | |
|---------------------------------|--------------------------------|
| Program table | Utensil washer |
| Utensil washers programs | Short - 2"; Long - 4"; Endless |
| Maximum basket/hour | 30 |

Electrical Connection

| | | | |
|-------------------------------------|-------------|---------------------------------------|------------------------------------|
| Plug | Not present | Wash pump power | 1600W |
| Tank heating element power | 4500 W | Default connection | 9000 W |
| Boiler heating element power | 7500 W | Optional electrical connection | 230 V 3~ / 39,5 A / 9,0 kW / 50 Hz |

Interface

| | | | |
|--------------------------|---------|----------------------|-----|
| Display | 4 digit | On/Off button | Yes |
| Number of buttons | 3 | | |

Construction

| | | | |
|--------------------------|---------------------------------------------------------------------|--------------------------|-----------------------|
| Tank Construction | With printed base Single-skin | Filter | 2-stage filter system |
| Tank material | Stainless steel AISI 304 | Tank capacity | 36 l |
| Back panel | Galvanized | Boiler capacity | 12 l |
| Upper wash system | One wash and one split rinse spray arms, stainless steel | Boiler type | Artmosferic boiler |
| Lower wash system | A 3-arms wash and one split rinse spray arms, stainless steel | Noise | LpA<70 dB(A) |
| Tank filter | Stainless steel | Protection class | IPX4 |
| Rack guides | Welded | Adjustable feet | Yes |
| | | Drain max. height | 800 mm |

Accessories included

| | | | |
|-----------------------|--------------|--------------------------|------------|
| Cutlery basket | 1x WH00S02 | Water supply hose | Yes - 2,5m |
| Flat basket | 1x WB5757G01 | Drain hose | Yes - 2m |

Equipments

| | | | |
|----------------------------------------|--------|-----------------------------------|-------------|
| Peristaltic detergent dispenser | Manual | Water supply pipe diameter | DN15 - ½" |
| Peristaltic rinse-aid dispenser | Manual | Drain supply pipe diameter | DN20-G 3/4" |

| | |
|--------------------------------|---------------|
| Rinse boiler Thermostop system | Yes - default |
| Wash pump soft start system | Yes |
| Break tank | Yes |

| | |
|------------------------------|------|
| Detergent (red) hose lenght | 2,2m |
| Rinse aid (blue) hose lenght | 2,2m |

Logistic Information

| | | | |
|-----------------------|---------|---------------------------|--------------|
| Width packed product | 860 mm | Packed product dimensions | 1910X860X820 |
| Depth packed product | 820 mm | Net weight | 135,000 kg |
| Height packed product | 1910 mm | Gross weight (kg) | 161,000 |

Compatible Accessories

**WB5757G01**

Universal basket with flat bottom, dim.
(WxDxH) 570x570x140 mm

**WB5757T01**

Stainless steel basket for 5 trays, dim.
(WxDxH) 570x570x255 mm

**WB5757T02**

Stainless steel basket for 8 trays, dim.
(WxDxH) 570x570x255 mm

**WH00B02**

Block for sac à poche

**WH00S02**

Basket for utensils, dim. (WxDxH)
150x150x250 mm

HTR RINSING SYSTEM

MAX.USABLE HEIGHT 640mm

Benefit (TT)

Interface

Control panel with electronic buttons

The electronic control panel features an intuitive interface with soft-touch buttons, allowing easy selection of one of the three wash programmes: short, medium, or intensive. There are also buttons for power, selection, and cycle start. The display provides real-time monitoring of the tank and boiler temperature, as well as diagnostics, ensuring effortless and immediate control of the main functions.

2-stage system

Two-stage filtration system to ensure optimal washing performance and maximum water purity

The filtration system is entirely made of AISI 304 stainless steel, ensuring maximum resistance, durability, and corrosion protection. It consists of two filtration stages: the first features a grid that prevents dirt residues from entering the tank, thereby avoiding water clouding; the second protects the washing pumps by retaining any debris that may accidentally enter the tank during filter cleaning.

HTR System

Consistent temperatures and pressures for uniform and effective dishwashing

Thanks to the HTR system (High Temperature Rinse) and the presence of the atmospheric boiler combined with the Thermostop, the cold inlet water does not enter the boiler during rinsing, ensuring a constant temperature of 85°C. The HTR system keeps the water hot for deep sanitisation and quick drying, ensuring constant pressure for uniform and effective cleaning.

Door

Split and balanced doors for maximum ergonomics

The split and balanced doors have been designed with the aim of optimising ergonomics during tool loading and unloading operations. Their design allows for easier use, minimising the physical effort required from the operator. This helps improve work efficiency while also ensuring greater comfort and safety in the working environment.

Soft-start system

Effective management of the washing pump to protect your glassware

The Soft-Start function initiates the wash cycle gently and gradually, progressively increasing the water pressure. This system has been designed to provide optimal protection for the most fragile items, such as crystal glasses, significantly reducing the risk of chipping or damage. At the same time, it ensures excellent cleaning performance, combining efficiency and safety in every wash cycle.
