

WD3T964SSA2

EAN Code	8017709344351
Product Family	Washer dryer
Commercial width	60 cm
Commercial depth	Standard capacity
Installation	Free-standing
Load type	Frontal

Programs

Controls	Electronic

Technical Features

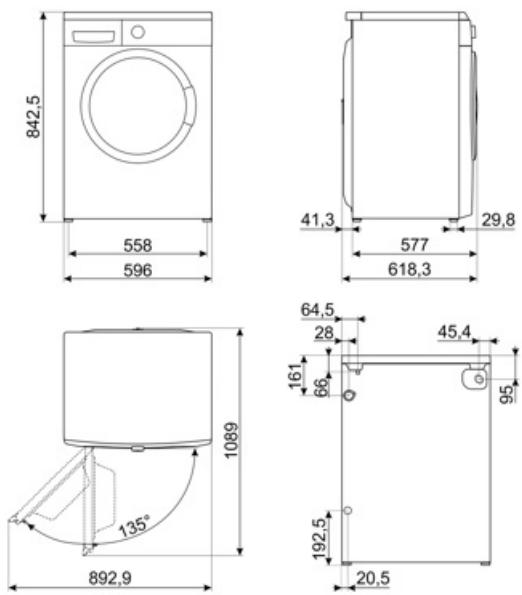

Type of motor	Brushless/Inverter	Door opening	135°
Electronic control functioning	Yes	Automatic variable load	Yes
Programme selection knob	Yes	Antifoam system	Yes
Spin speed selection on display/LED	No spin/ 400/ 800/ 1000/ 1200/ 1400	Load balancing system	Automatic
Display/led for temperature regulation	Yes	Easy to access filter	Yes
Polypropilene tank	Yes	Child lock (functions block)	Control block
Basket	Stainless steel	Anti-flood system	Yes
Drum capacity	61 l	Water supply	Single, cold
Door diameter	33 cm		

Performance / Energy Label

Washing loading capacity	9 kg	Noise level spinning	74 dB(A) re 1 pW
Drying loading capacity	6 kg	Noise level drying	60 dB(A) re 1 pW
Max spin speed	1400 giri/min	Energy consumption - Cotton 60° - Wash only	0,96 kWh
Energy efficiency class	A	Energy consumption (washing + drying)	6,12 kWh
Washing efficiency class	A	Duration of the normative programme	645 min
Energy rating	AA		
Noise level washing	53 dB(A) re 1 pW	Energy annual consumption (washing+drying)	1224 kWh
		Water annual consumption (washing+drying)	23600 l

Symbols glossary

Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

33 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.

Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.

Cotton: For soiled fabrics in cotton

To drain the water in the machine.

Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

Gentle drying: program designed to get laundry ready for easy ironing.

Inverter: Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

For lightly soiled fabrics in cotton and linen

Delicate: Clothing such as underwear, hosiery and luxury fabrics should be dried on the delicate cycle to help extend the life of the clothing.

Super fast 12 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.
