Technical Features

| | | | |
|---|--|--|---------------|
| Effective consumption | | Door diameter | 33 cm |
| Type of motor | Standard | Door opening | 135° |
| Electronic control functioning | Yes | Automatic variable load | Yes |
| Programme selection knob | Yes | Antifoam system | Yes |
| Temperature selection knob | | Load balancing system | Automatic |
| Spin speed selection knob | | Easy to access filter | Yes |
| Spin speed selection on display/LED | No spin/ 400/ 600/ 800/ 1000/ 1200/ 1400 | Child lock (functions block) | Control block |
| Display/led for temperature regulation | Yes | Anti-flood system | Yes |
| Polypropilene tank | Yes | Water supply | Single, cold |
| Basket | Stainless steel | Accessories included | |
| Drum capacity | 61 l | Furniture door can be fitted on right or left side with adjustable hinges | |

Symbols glossary

| | |
|--|---|
|  Energy efficiency class A |  Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load. |
|  Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration. |  Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed. |
|  Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods. |  LCD display: to optimize performance and simplify the use of the appliance. |
|  33 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use. |  Gentle drying: program designed to get laundry ready for easy ironing. |
|  This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple. |  No spin option: this option allows to exclude the last spin phase, draing the water from the tank |
|  Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent. |  Cotton: programme designed for washing medium to heavily soiled cotton garments, ensuring thorough and effective cleaning. |
|  Cotton Eco 20°: For soiled fabrics in cotton |  Eco 40-60: reference programme defined by EU regulations for measuring the energy performance of washing machines. Ideal for normally soiled cotton garments washable at 40 °C or 60 °C, it provides an excellent balance between cleaning performance and savings, although it requires a longer washing time. |
|  Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc |  Extra Rinse: Extra Rinse: adds an extra rinse cycle to that already provided in the program chosen, to remove any residual detergent. This function is particularly suitable for those with allergies or skin problems. |
|  Super fast 12 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments. |  Duvet: gentle cycle specific for duvet. |
|  Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed. |  Spin: a programme designed to perform an effective spin cycle to remove excess water from garments. |

Synthetics: programme designed for synthetic and mixed-fibre fabrics. Ideal for lightly to normally soiled garments, it uses moderate temperatures and a gentler washing action to protect the fibres and reduce creasing, ensuring effective cleaning without stressing the materials.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.
