### Symbols glossary

Total acquastop: Most models of Smeg dishwashers are equipped with Acquastop Totale, which allows to avoid flooding as a result of water leakage. The system consists of a a float sensor, disposed under the inner chamber of a dishwasher, which blocks water supply inside the appliance in case of water leakage into the lower tray. An additional electromagnetic valve on the water inlet hose also automatically blocks water supply if detecting water leakage in the hose. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage.

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

Autocleaning system: Autocleaning system avoids the formation of lint and impurities inside the condensation system ensuring maximum reliability of the machine.

Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

B: Product energy rating, measured from A+++ to D / G depending on the product family.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

30 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

Gentle drying: program designed to get laundry ready for easy ironing.

This shows the amount of laundry that can be inserted into the tumble dryer in KG.

This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.

Intensive option: this function extends the duration of the wash cycle and increases the intensity of the wash, ensuring a deeper cleaning for heavily soiled garments.

Prewash: program designed for heavily soiled garments.

Cleaning programme: A cleaning programme has been created to maintain the performance of washer/dryers. The display shows automatically when cleaning is required.

For lightly soiled fabrics in cotton and linen

Cotton 40°: For soiled fabrics in cotton

Cotton 60°: For soiled fabrics in cotton

Cotton 90°: For soiled fabrics in cotton

Curtains: Program for washing the curtains.

To drain the water in the machine.

SMEG SPA 12/5/2025

Extra Rinse: Extra Rinse: adds an extra rinse cycle to that already provided in the program chosen, to remove any residual detergent. This function is particularly suitable for those with allergies or skin problems.

Hand wash: this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Mix 30°: washing program that allows to to wash your cotton and synthetic clothes together without sorting them.

Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.

Rapid 15-30  $^{\circ}$ : Rapid washing program at 30  $^{\circ}$ , let to clean slightly dirty items in a very short time.

Quick 15 min.: ideal for small loads of lightly soiled garments, it guarantees a fast wash in a very short time.

Rinse and Spin: this programme is suitable for rinsing and spinning garments.

Synthetic 30 °: washing program at 30 ° for Synthetics items

Synthetic 40 °: washing program at 30 ° for Synthetics items

Wool Cold: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Option that allow to reduce times of the selected program.

Drum has maximum capacity of 7kg of dry laundry.
