

WDN064SLDUK

EAN Code	8017709328436
Product Family	Washer dryer
Commercial width	60 cm
Commercial depth	Standard capacity
Installation	Free-standing
Load type	Frontal

Technical Features

Type of motor	Brushless/Inverter	Door opening	170°
Electronic control functioning	Yes	Automatic variable load	Yes
Programme selection knob	Yes	Antifoam system	Yes
Spin speed selection on display/LED	No spin/ 600/ 800/ 1200/ 1400/ Rinse hold	Load balancing system	Automatic
Display/led for temperature regulation	Yes	Easy to access filter	Yes
Polypropylene tank	Yes	Child lock (functions block)	Control block
Basket	Stainless steel	Anti-flood system	Yes
Drum capacity	65 l	Aquastop system	Acquastop tube
Door diameter	34 cm	Water supply	Single, cold

Weighted energy consumption lavaggio 68 kWh

weighted energy consumption (ciclo complete) 306 kWh

Airbone acoustical noise class B

Airbone acoustical noise 76 dB(A) re 1 pW

Eco 40-60 programme duration (Rated washing capacity) 3:58 h:min

Wash and dry cycle duration (Rated capacity) 9:30 h:min

Symbols glossary

	Acquastop: Some Smeg dishwashers are equipped with a simple Acquastop: float sensor in the bottom which is necessary to prevent an accidental leakage of water inside the appliance.		Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.
	Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.		Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		LCD display: to optimize performance and simplify the use of the appliance.
	34 cm: Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.		Gentle drying: program designed to get laundry ready for easy ironing.
	This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.		Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.
	Prewash: program designed for heavily soiled garments.		Cotton: For soiled fabrics in cotton
	To drain the water in the machine.		Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.
	Super fast 14 min.: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.		Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.
	Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.		Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.
	Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.		Option that allow to reduce times of the selected program.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Energy efficiency class D

Benefit (TT)

Up to 14 programmes

Up to 14 programmes to meet every daily need

LCD Display

With soft touch control and LCD lights for an improved user experience and easy combination of programmes and options

Easy Iron Option

Perfect fabrics thanks to the Easy Iron option that ventilates the laundry for up to 8 hours

Steam Energy Technology

Perfect removal of stains, smells, creases and allergens using steam

Steam Energy technology, uses steam, at the beginning or end of the cycle depending on the programme, to remove stains, creases, smells and allergens.

Inverter

Greater energy efficiency, lower consumption, and longer lifespan by reducing wear and noise thanks to the Inverter motor

Giant door

Increased convenience and versatility, making loading and unloading laundry easier thanks to the new giant door opening
