KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

Symbols glossary

Acquastop: Some Smeg dishwashers are equipped with a simple Acquastop: float sensor in the bottom which is necessary to prevent an accidental leakage of water inside the appliance.

Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Cold wash.

Direct Motion: electronic management ensures maximum performance at any spin speed, along with more silent operation and greater safety when washing delicate items, thanks to a significant reduction in vibration. For models with 11 kg load capacity.

34 cm: Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

Inverter: Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Prewash: program designed for heavily soiled garments.

Cotton: programme designed for washing medium to heavily soiled cotton garments, ensuring thorough and effective cleaning.

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

LCD display: to optimize performance and simplify the use of the appliance.

This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.

No spin option: this option allows to exclude the last spin phase, draing the water from the tank

Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.

Eco 40-60: reference programme defined by EU regulations for measuring the energy performance of washing machines. Ideal for normally soiled cotton garments washable at 40 °C or 60 °C, it provides an excellent balance between cleaning performance and savings, although it requires a longer washing time.

 Dark wash: Washing programme to wash your dark colored laundry or colored laundry that you do not want them get faded. Washing is performed with little mechanic action and at low temperatures. It is recommended to use liquid detergent or woolen shampoo for dark coloured laundry.	 Delicate: Clothing such as underwear, hosiery and luxury fabrics should be dried on the delicate cycle to help extend the life of the clothing.
 To drain the water in the machine.	 Extra Rinse: Extra Rinse: adds an extra rinse cycle to that already provided in the program chosen, to remove any residual detergent. This function is particularly suitable for those with allergies or skin problems.
 Hand wash: this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.	 Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.
 Super fast 14 min.: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.	 Duvet: gentle cycle specific for duvet.
 Refresh: an ideal program to refresh the garments that have been kept for a long time indoors and eliminate unpleasant odors, without having to wash.	 Terminato il lavaggio il ciclo si blocca con l'acqua in vasca
 Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.	 Sport: programme designed to quickly wash sports and technical clothing, which undergo frequent washes, ensuring optimal hygiene and protection of the fibres.
 Synthetics: programme designed for synthetic and mixed-fibre fabrics. Ideal for lightly to normally soiled garments, it uses moderate temperatures and a gentler washing action to protect the fibres and reduce creasing, ensuring effective cleaning without stressing the materials.	 Woolmark Wool Hand Wash Safe: For Washing Machines: The wool wash cycle of this machine has been approved by The Woolmark Company for the washing of wool garments labelled as "hand wash" provided that the garments are washed according to the instructions issued by the manufacturer of this washing machine. Follow the garment care label for drying and other laundry instructions. For Dryers: The wool drying cycle of this machine has been approved by The Woolmark Company for the drying of wool garments labelled as "hand wash" provided that the garments are dried according to the instructions issued by the manufacturer of this machine. Follow the garment care label for other laundry instructions. "In UK, Eire, Hong Kong and India the Woolmark trade mark is a Certification trade mark."
 Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.	 Volumeplus: Smeg offers models with load up to 8 kg, while maintaining the best washing results, and providing low energy consumption.
 Drum has maximum capacity of 11kg of dry laundry.	

Benefit (TT)

Large capacity

Large capacity to handle heavy loads with advanced programs for impeccable results every wash

LCD Display

With soft touch control and LCD lights for an improved user experience and easy combination of programmes and options -

Inverter

Greater energy efficiency, lower consumption, and longer lifespan by reducing wear and noise thanks to the Inverter motor
