WM3T84SSA

EAN Code	8017709340964
Product Family	Washing Machine
Commercial width	60 cm
Commercial depth	Standard
Installation	Free-standing
Load type	Frontal

Aesthetics

Colour	Silver	**Door colour**	Black with silver profile
Front panel colour	Black	**Door window**	Giant door
Led/display colour	White	**Handle colour**	Silver
Front panel type	T3	**Drawer Color**	Black
Function buttons colour	Black	**Cabinet colour**	Silver
On/Off buttons colour	Silver	**Top colour**	Black
No. of control knobs	1		

Programs

Controls	Electronic
Programmes graphics	Written in EN
No. of programmes	15

Programmes

Rapid 15'	Allergy Safe	Colors
Jeans/Darks	Hand Wash	Spin and Drain
Rinse	Cotton	Cotton 20°
Cotton Prewash	Eco 40-60	Wool

Handwash	Allergy Safe	

Display

Residual time indicator	delay start

Display type LED DISPLAY

Buttons/Options

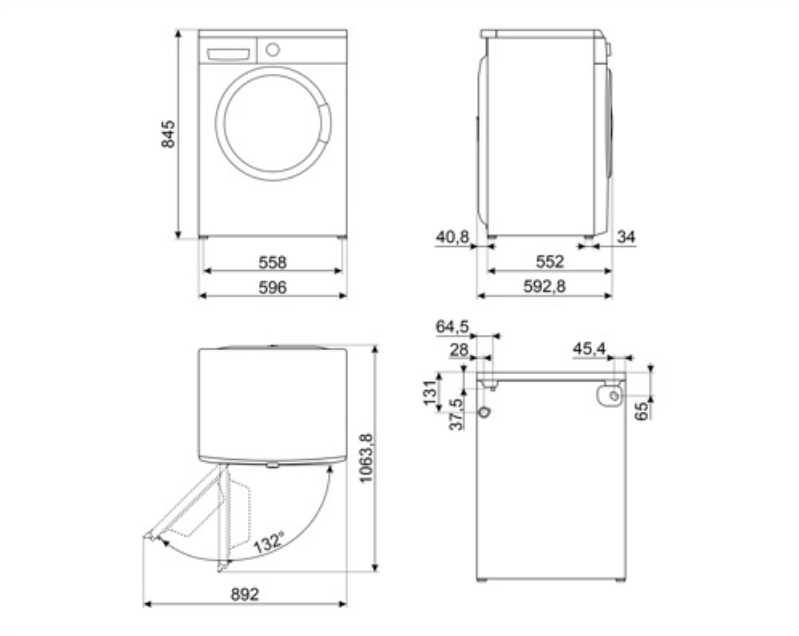

Stain Level	Stain Type	Options
Save+ / Express	Delay timer	Spin Speed
Temperature	Steam	

Technical Features

Effective consumption	20% less energy consumption than energy rating A+++
Type of motor	Brushless/Inverter
Electronic control functioning	Yes
Programme selection knob	Yes
Spin speed selection on display/LED	No spin/ 400/ 800/ 1000/ 1200/ 1400
Display/led for temperature regulation	Yes
Polypropilene tank	Yes
Basket	Stainless steel
Drum capacity	55 l
Door diameter	51 cm
Door opening	160°
Automatic variable load	Yes
Antifoam system	Yes
Load balancing system	Automatic
Easy to access filter	Yes
Child lock (functions block)	Control block

Electrical Connection

Nominal power	2200 W
Current	10 A
Voltage (V)	220-240 V
Frequency (Hz)	50 Hz
Power supply cable length	160 cm
Plug	(M) Sud Africa

KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

Symbols glossary

Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.

Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.

Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.

Cotton: For soiled fabrics in cotton

Hand wash: this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Super fast 15 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

For lightly soiled fabrics in cotton and linen

Prewash cotton

To drain the water in the machine.

Jeans / Dark garments: Special cycle designed to meet the washing needs of jeans or dark garments. The program allows you to wash the garments respecting colors and minimizing creases thanks to minimal mechanical action and low temperatures.

Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.

Spin speed control: On the control panel there is a spin speed control knob. In some models, the maximum spin speed is 1400 rpm / min. You can also to exclude spin.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Temperature Adjustment: allows you to tailor the wash cycle to your needs by selecting the most suitable temperature to protect fabrics, remove dirt, and achieve optimal results with every wash.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Drum has maximum capacity of 8kg of dry laundry.

Benefit (TT)

Standard dimensions to fit any home environment, with optimal capacity and advanced features

15 programmes

Up to 15 programmes to meet every daily need

LED Display

With soft touch control and LED lights for intuitive and fast setting and selection of each option

Inverter

Brushless, it offers greater energy efficiency, lower consumption and longer life, reducing wear and noise. It optimises consumption and ensures high performance while maintaining high washing efficiency.

Giant door

The size of the door offers greater convenience and versatility, facilitating the loading and unloading of laundry thanks to its wide opening, and gives a more premium and elegant look, enriching the overall design of the appliance
