

# WM3T84SSA

EAN Code	8017709340964
Product Family	Washing Machine
Commercial width	60 cm
Commercial depth	Standard
Installation	Free-standing
Load type	Frontal

## Aesthetics

Colour	Silver	Door colour	Black with silver profile
Front panel colour	Black	Door window	Giant door
Led/display colour	White	Handle colour	Silver
Front panel type	T3	Drawer Color	Black
Function buttons colour	Black	Cabinet colour	Silver
On/Off buttons colour	Silver	Top colour	Black
No. of control knobs	1		

## Programs

Controls	Electronic		
Programmes graphics	Written in EN		
No. of programmes	15		
Programmes			
 Rapid 15'	 Allergy Safe	 Colors	
 Jeans/Darks	 Hand Wash	 Spin and Drain	
 Rinse	 Cotton	 Cotton 20°	
 Cotton Prewash	 Eco 40-60	 Wool	
Outdoor	Duvet	Daily Fast 60'	

### Washing Temperature

Cool	20°C	30°C
40°C	60°C	90°C

### Special programmes

Outdoor	 Rapid 15'	 Wool
Handwash	 Handwash	 Allergy Safe

### Display

Residual time indicator	delay start
-------------------------	-------------

Display type	 LED DISPLAY
--------------	---

### Buttons/Options

Stain Level	Stain Type	Options
Save+ / Express	 Delay timer	 Spin Speed
 Temperature	 Steam	

## Technical Features

<b>Effective consumption</b>	20% less energy consumption than energy rating A+++	<b>Drum capacity</b>	55 l
<b>Type of motor</b>	Brushless/Inverter	<b>Door diameter</b>	51 cm
<b>Electronic control functioning</b>	Yes	<b>Door opening</b>	160°
<b>Programme selection knob</b>	Yes	<b>Automatic variable load</b>	Yes
<b>Spin speed selection on display/LED</b>	No spin/ 400/ 800/ 1000/ 1200/ 1400	<b>Antifoam system</b>	Yes
<b>Display/led for temperature regulation</b>	Yes	<b>Load balancing system</b>	Automatic
<b>Polypropilene tank</b>	Yes	<b>Easy to access filter</b>	Yes
<b>Basket</b>	Stainless steel	<b>Child lock (functions block)</b>	Control block

## Electrical Connection

<b>Nominal power</b>	2200 W	<b>Frequency (Hz)</b>	50 Hz
<b>Current</b>	10 A	<b>Power supply cable length</b>	160 cm
<b>Voltage (V)</b>	220-240 V	<b>Plug</b>	(M) Sud Africa

### KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

## Symbols glossary

 A++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.	 Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.
 Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.	 Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
 Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.	 LED display: to show programmes, functions and options selected and the time to the end of the cycle.
 This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.	 Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.
 Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.	 For lightly soiled fabrics in cotton and linen
 Cotton: For soiled fabrics in cotton	 Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. 1/2 capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.
 Prewash cotton	 To drain the water in the machine.
 Hand wash: this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.	 Super fast 15 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.
 Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.	 Spin speed control: On the control panel there is a spin speed control knob. In some models, the maximum spin speed is 1400 rpm / min. You can also to exclude spin.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Drum has maximum capacity of 8kg of dry laundry.

Jeans / Dark garments: Special cycle designed to meet the washing needs of jeans or dark garments. The program allows you to wash the garments respecting colors and minimizing creases thanks to minimal mechanical action and low temperatures.

Temperature Adjustment: allows you to tailor the wash cycle to your needs by selecting the most suitable temperature to protect fabrics, remove dirt, and achieve optimal results with every wash.

---

## Benefit (TT)

---

Standard dimensions to fit any home environment, with optimal capacity and advanced features

### **15 programmes**

Up to 15 programmes to meet every daily need

### **LED Display**

With soft touch control and LED lights for intuitive and fast setting and selection of each option

### **Inverter**

Brushless, it offers greater energy efficiency, lower consumption and longer life, reducing wear and noise. It optimises consumption and ensures high performance while maintaining high washing efficiency.

### **Giant door**

The size of the door offers greater convenience and versatility, facilitating the loading and unloading of laundry thanks to its wide opening, and gives a more premium and elegant look, enriching the overall design of the appliance
