## Kompatibel Zubehör

---

### KITPLV2

Kit 2 m Schlauchverlängerung für Wasserzu-/Ablauf in 3/4" inkl. Verbindungszubehör, geeignet für Geschirrspüler, Waschautomaten und Vollwaschtrockner

## Symbolverzeichnis

-  A++: Die Energieeffizienzklasse A++ hilft, bis zu 20 % Energie im Vergleich zur Energieeffizienzklasse A einzusparen. Maximale Leistung bei minimalem Verbrauch ist garantiert.
-  Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.
-  Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.
-  Cold wash.
-  LED-Display: zur optischen Anzeige der gewählten Programme, Funktionen und Optionen sowie die Restlaufzeit bis Programmende.
-  This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.
-  Intensive option: this function extends the duration of the wash cycle and increases the intensity of the wash, ensuring a deeper cleaning for heavily soiled garments.
-  Prewash: program designed for heavily soiled garments.
-  Total acquastop: Most models of Smeg dishwashers are equipped with Acquastop Totale, which allows to avoid flooding as a result of water leakage. The system consists of a float sensor, disposed under the inner chamber of a dishwasher, which blocks water supply inside the appliance in case of water leakage into the lower tray. An additional electromagnetic valve on the water inlet hose also automatically blocks water supply if detecting water leakage in the hose. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage.
-  Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.
-  Kindersicherung: Eine Tastensperre, die einen ungewollten Zugriff auf die Funktionen verhindert.
-  Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.
-  30 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.
-  FlexiTime: The FlexiTime option allows the user to reduce the time of the cycle selected, providing extra flexibility and control.
-  No spin option: this option allows to exclude the last spin phase, draing the water from the tank
-  Cotton: programme designed for washing medium to heavily soiled cotton garments, ensuring thorough and effective cleaning.

 <p>Eco 40-60: reference programme defined by EU regulations for measuring the energy performance of washing machines. Ideal for normally soiled cotton garments washable at 40 °C or 60 °C, it provides an excellent balance between cleaning performance and savings, although it requires a longer washing time.</p>	 <p>Delicate: Clothing such as underwear, hosiery and luxury fabrics should be dried on the delicate cycle to help extend the life of the clothing.</p>
 <p>To drain the water in the machine.</p>	 <p>Verlängerte Nachspülung</p>
 <p>Hand wash: this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.</p>	 <p>Jeans: a washing cycle which is kind to the colour and fabric of denim whilst minimising wrinkles.</p>
 <p>Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.</p>	 <p>PRG NACHT</p>
 <p>Quick 15 min.: ideal for small loads of lightly soiled garments, it guarantees a fast wash in a very short time.</p>	 <p>Terminato il lavaggio il ciclo si blocca con l'acqua in vasca</p>
 <p>Rinse and Spin: this programme is suitable for rinsing and spinning garments.</p>	 <p>Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.</p>
 <p>Softener</p>	 <p>Sport: programme designed to quickly wash sports and technical clothing, which undergo frequent washes, ensuring optimal hygiene and protection of the fibres.</p>
 <p>Synthetics: programme designed for synthetic and mixed-fibre fabrics. Ideal for lightly to normally soiled garments, it uses moderate temperatures and a gentler washing action to protect the fibres and reduce creasing, ensuring effective cleaning without stressing the materials.</p>	 <p>Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.</p>
 <p>Volumeplus: Smeg offers models with load up to 8 kg, while maintaining the best washing results, and providing low energy consumption.</p>	 <p>Drum has maximum capacity of 7kg of dry laundry.</p>

## Benefit (TT)

---

### **Großes Fassungsvermögen**

Großes Fassungsvermögen für schwere Beladungen – mit fortschrittlichen Programmen für makellose Ergebnisse bei jedem Waschgang.

### **15 programmes**

Up to 15 programmes to meet every daily need

### **LED Display**

Mit Soft-Touch-Bedienung und LED-Leuchten für eine intuitive und schnelle Einstellung sowie Auswahl jeder Option.
