Technical Features

Type of motor Brushless/Inverter

Electronic control Yes

functioning

Programme selection knob Yes

Spin speed selection on display/LED No spin/ 600/ 800/ 1200/ 1400/ Rinse hold

Display/led for temperature regulation Yes

Polypropilene tank Yes

Basket Stainless steel

Drum capacity 65 l

Liquid detergent accessory as standard Yes

Door diameter 34 cm

Door opening 160°

Automatic variable load Yes

Antifoam system Yes

Load balancing system Automatic

Easy to access filter Yes

Child lock (functions block) Control block

Performance / Energy Label NEW 2019

Supplier's name or trademark SMEG

Rated Capacity 10 kg

Energy Efficiency Class A

Energy_cons_100 51 KWh

Water Consumption 48 litres

Spin-drying efficiency class B

Airborne acoustical noise class B

Airborne acoustical noise 75 dB(A) re 1 pW

Programme duration at rated capacity 3:58 h:min

Not included accessories

KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

Symbols glossary (TT)

	Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.		Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		LED display: to show programmes, functions and options selected and the time to the end of the cycle.
	34 cm: Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.		This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.
	Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.		Prewash: program designed for heavily soiled garments.
	Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.		Cotton: For soiled fabrics in cotton
	To drain the water in the machine.		Energy efficiency class A
	Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.		Super fast 14 min.: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.
	Refresh: an ideal program to refresh the garments that have been kept for a long time indoors and eliminate unpleasant odors, without having to wash.		Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.
	Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.		Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.

Option that allow to reduce times of the selected program.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Volumeplus: Smeg offers models with load up to 8 kg, while maintaining the best washing results, and providing low energy consumption.

Drum has maximum capacity of 10kg of dry laundry.
