WNP04SEAIN1

EAN Code	8017709347154
Product Family	Washing Machine
Commercial width	60 cm
Commercial depth	Large capacity
Installation	Free-standing
Load type	Frontal

Aesthetics

Colour	White
Front panel colour	White
Led/display colour	White
Front panel type	NovaCare
Function buttons colour	Black
On/Off buttons colour	Black
No. of control knobs	1
Programme/temperature knob colour	Black/Chrome
Door colour	Black with chrome ring
Door window	Giant door
Handle colour	Black
Drawer Color	White
Cabinet colour	White
Top colour	White

Programs

Controls	Electronic
Programmes graphics	Written in EN
Multilanguage clip system	Yes
No. of programmes	15

Programmes

- Cold Wash
- Anti-allergy
- Stain-resistant
- Shirts
- Cotton
- Eco 40-60
- Wool/Hand wash
- Mix
- Duvet
- Quick Wash 14 min
- Refresh
- Rinse
- Drain + Spin
- Self Clean
- Synthetics

Washing Temperature

Cool	20°C	30°C
40°C	60°C	90°C

Special programmes

Refresh	Wool/Hand wash	Anti-allergy
Antimacchia	Quick 14 min	

Display

Residual time indicator	delay start	programme status indication

Display type LED DISPLAY

Buttons/Options

End Time	Spin Speed	Temperature
Intensive	Steam	Smart Water

Programme progress indicator (light)	On display
End of cycle indicator (light)	On display

Technical Features

Durability index	8,4
Type of motor	Brushless/Inverter
Electronic control functioning	Yes
Programme selection knob	Yes
Spin speed selection on display/LED	No spin/ 600/ 800/ 1200/ 1400/ Rinse hold
Display/led for temperature regulation	Yes
Polypropilene tank	Yes
Basket	Stainless steel
Drum capacity	65 l
Liquid detergent accessory as standard	Yes
Door diameter	34 cm
Door opening	160°
Automatic variable load	Yes
Antifoam system	Yes
Load balancing system	Automatic
Easy to access filter	Yes
Child lock (functions block)	Control block

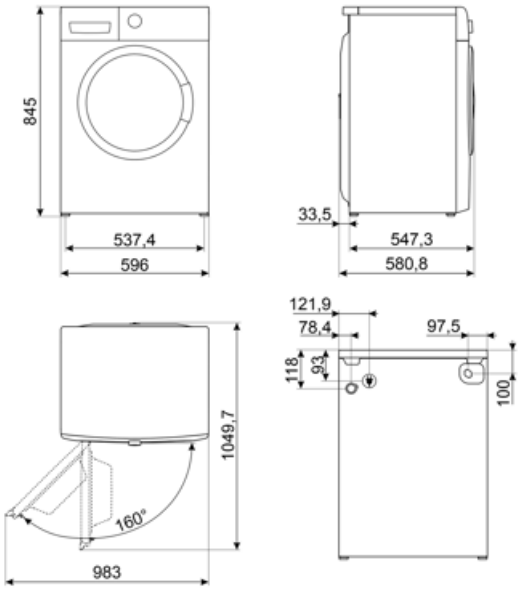

Performance / Energy Label - Reg. 2019

Supplier's name or trademark	SMEG
Rated Capacity	10 kg
Energy Efficiency Class	A
Spin-drying efficiency class	B
Airbone acoustical noise class	B

Energy_cons_100	51 kWh	**Airbone acoustical noise**	75 dB(A) re 1 pW
Water Consumption	51 litres	**Programme duration at rated capacity**	3:48 h:min

Electrical Connection

Nominal power	1750 W	**Frequency (Hz)**	50 Hz
Current	10 A	**Power supply cable length**	140 cm
Voltage (V)	230 V	**Plug**	(F;E) Schuko

Compatible Accessories

KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

KITSPNC1

KITSPNC

Stacking kit dedicated to WN & DN
Dimension (mm): L598xH35xP618

Symbols glossary

Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Cold Wash: a programme designed for the effective washing of moderately soiled garments at low temperatures. Thanks to a specially developed washing algorithm, it delivers excellent cleaning results while helping preserve fabrics, colours and energy efficiency.

This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Cotton: programme designed for washing medium to heavily soiled cotton garments, ensuring thorough and effective cleaning.

To drain the water in the machine.

Super fast 14 min.: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.

Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

34 cm: Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

Intensive option: this function extends the duration of the wash cycle and increases the intensity of the wash, ensuring a deeper cleaning for heavily soiled garments.

Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.

Eco 40-60: reference programme defined by EU regulations for measuring the energy performance of washing machines. Ideal for normally soiled cotton garments washable at 40 °C or 60 °C, it provides an excellent balance between cleaning performance and savings, although it requires a longer washing time.

Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.

Refresh: an ideal program to refresh the garments that have been kept for a long time indoors and eliminate unpleasant odors, without having to wash.

Shirts: Specific program that allows you to wash shirts with the utmost attention. The addition of steam at the end of the cycle ensures a reduction in the formation of creases and ironing times.

Spin: a programme designed to perform an effective spin cycle to remove excess water from garments.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Stains: a dedicated programme specifically designed for the effective removal of the most common stains from durable cotton garments. Thanks to optimised washing and rinsing parameters, it delivers excellent cleaning results by adapting the treatment to different types of soiling, ensuring clean and well-cared-for laundry.

Energy efficiency class A

Self Clean: this programme, to be run with an empty drum, thoroughly cleans the inside of the washing machine by removing fabric and detergent residues, as well as bacteria that can accumulate during low-temperature washes.

End Time : this function allows you to set the desired finishing time of the wash cycle. You can plan when your laundry will be ready, aligning the end of the programme with your daily schedule while ensuring optimal washing results.

Synthetics: programme designed for synthetic and mixed-fibre fabrics. Ideal for lightly to normally soiled garments, it uses moderate temperatures and a gentler washing action to protect the fibres and reduce creasing, ensuring effective cleaning without stressing the materials.

Volumeplus: Smeg offers models with load up to 8 kg, while maintaining the best washing results, and providing low energy consumption.

Wool/Hand wash: ideal program for delicate, wool and silk garments that require particular attention in washing. It uses room temperature water and slow drum rotations to ensure maximum garment care.

Drum has maximum capacity of 10kg of dry laundry.

Temperature Adjustment: allows you to tailor the wash cycle to your needs by selecting the most suitable temperature to protect fabrics, remove dirt, and achieve optimal results with every wash.

Benefit (TT)

Large capacity

Large capacity to handle heavy loads with advanced programs for impeccable results every wash

15 programmes

Up to 15 programmes to meet every daily need

LED Display

With soft touch control and LED lights for intuitive and fast setting and selection of each option

Steam Energy Technology

Perfect removal of stains, smells, creases and allergens using steam

Steam Energy technology, uses steam, at the beginning or end of the cycle depending on the programme, to remove stains, creases, smells and allergens.

Inverter

Greater energy efficiency, lower consumption, and longer lifespan by reducing wear and noise thanks to the Inverter motor

Giant door

Increased convenience and versatility, making loading and unloading laundry easier thanks to the new giant door opening
