## Symbols glossary

 <p><b>Variable load:</b> In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.</p>	 <p><b>Automatic Load Balancing:</b> provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.</p>
 <p><b>Child lock:</b> some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>	 <p><b>LED display:</b> to show programmes, functions and options selected and the time to the end of the cycle.</p>
 <p><b>34 cm:</b> Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.</p>	 <p>This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.</p>
