smeg

WNP84SEAIN1

EAN Code	8017709347178
Product Family	Washing Machine
Commercial width	60 cm
Commercial depth	Standard
Installation	Free-standing
Load type	Frontal

Programs

Controls	Electronic
Programmes graphics	Written in EN
Multilanguage clip system	Yes
No. of programmes	15
Programmes	

Cold Wash	Anti-allergy	Stain-resistant
Shirts	Cotton	Eco 40-60
Wool/Hand wash	Mix	Duvet
Quick Wash 14 min	Refresh	Rinse
Drain + Spin	Self Clean	Synthetics
Washing Temperature

Cool	20°C	30°C
40°C	60°C	90°C

Special programmes

Refresh	Wool/Hand wash	Anti-allergy
Antimacchia	Quick 14 min	
Display

Residual time indicator	delay start	programme status indication

Display type

LED DISPLAY

Buttons/Options

End Time	Spin Speed	Temperature
Quick	Steam	Smart Water

Programme progress indicator (light)   On display
End of cycle indicator (light)   On display

Technical Features

Durability index	8,3		**Door diameter**	34 cm
Type of motor	Brushless/Inverter		**Door opening**	160°
Electronic control functioning	Yes		**Automatic variable load**	Yes
Programme selection knob	Yes		**Antifoam system**	Yes
			Load balancing system	Automatic
Spin speed selection on display/LED	No spin/ 600/ 800/ 1200/ 1400/ Rinse hold		**Easy to access filter**	Yes
Display/led for temperature regulation	Yes		**Child lock (functions block)**	Control block
Polypropilene tank	Yes		**Anti-flood system**	Yes
Basket	Stainless steel			
Drum capacity	55 l			

Performance / Energy Label - Reg. 2019

Supplier's name or trademark	SMEG		**Spin-drying efficiency class**	B
Rated Capacity	8 kg		**Airbone acoustical noise class**	B
Energy Efficiency Class	A		**Airbone acoustical noise**	76 dB(A) re 1 pW
Energy_cons_100	47 kWh		**Programme duration at rated capacity**	3:38 h:min
Water Consumption	47 litres			

Electrical Connection

Nominal power	2200 W		**Frequency (Hz)**	50 Hz
Current	10 A		**Power supply cable length**	140 cm
Voltage (V)	230 V		**Plug**	(F;E) Schuko
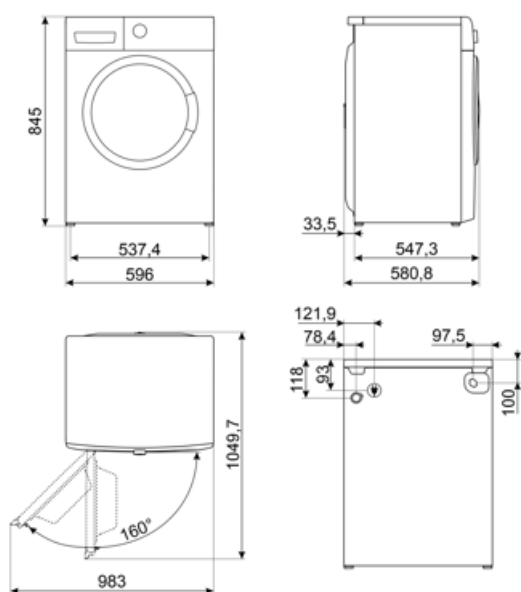

Compatible Accessories

KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

Symbols glossary

Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

34 cm: Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.

Cotton: programme designed for washing medium to heavily soiled cotton garments, ensuring thorough and effective cleaning.

Eco 40-60: reference programme defined by EU regulations for measuring the energy performance of washing machines. Ideal for normally soiled cotton garments washable at 40 °C or 60 °C, it provides an excellent balance between cleaning performance and savings, although it requires a longer washing time.

To drain the water in the machine.

Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.

Super fast 14 min.: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Refresh: an ideal program to refresh the garments that have been kept for a long time indoors and eliminate unpleasant odors, without having to wash.

Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.

Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.

Spin: a programme designed to perform an effective spin cycle to remove excess water from garments.

Synthetics: programme designed for synthetic and mixed-fibre fabrics. Ideal for lightly to normally soiled garments, it uses moderate temperatures and a gentler washing action to protect the fibres and reduce creasing, ensuring effective cleaning without stressing the materials.

Option that allow to reduce times of the selected program.	Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.
Drum has maximum capacity of 8kg of dry laundry.	Wool/Hand wash: ideal program for delicate, wool and silk garments that require particular attention in washing. It uses room temperature water and slow drum rotations to ensure maximum garment care.
Energy efficiency class A	Self Clean: this programme, to be run with an empty drum, thoroughly cleans the inside of the washing machine by removing fabric and detergent residues, as well as bacteria that can accumulate during low-temperature washes.
Temperature Adjustment: allows you to tailor the wash cycle to your needs by selecting the most suitable temperature to protect fabrics, remove dirt, and achieve optimal results with every wash.	End Time : this function allows you to set the desired finishing time of the wash cycle. You can plan when your laundry will be ready, aligning the end of the programme with your daily schedule while ensuring optimal washing results.

Benefit (TT)

Standard dimensions to fit any home environment, with optimal capacity and advanced features

15 programmes

Up to 15 programmes to meet every daily need

LED Display

With soft touch control and LED lights for intuitive and fast setting and selection of each option

Steam Energy Technology

Perfect removal of stains, smells, creases and allergens using steam

Steam Energy technology, uses steam, at the beginning or end of the cycle depending on the programme, to remove stains, creases, smells and allergens.

Inverter

Greater energy efficiency, lower consumption, and longer lifespan by reducing wear and noise thanks to the Inverter motor

Giant door

Increased convenience and versatility, making loading and unloading laundry easier thanks to the new giant door opening
