WNP84SEAUK

EAN Code	8017709347222
Product Family	Washing Machine
Commercial width	60 cm
Commercial depth	Standard
Installation	Free-standing
Load type	Frontal

Aesthetics

Colour	White
Front panel colour	White
Led/display colour	White
Front panel type	NovaCare
Function buttons colour	Black
On/Off buttons colour	Black
No. of control knobs	1
Programme/temperature knob colour	Black/Chrome
Door colour	Black with chrome ring
Door window	Giant door
Handle colour	Black
Drawer Color	Chrome
Cabinet colour	White
Top colour	White

Programs

Controls	Electronic
Programmes graphics	Written in EN
No. of programmes	15

Programmes

Anti-allergy	Stain-resistant	Shirts
Cotton	Eco 40-60	Wool/Hand wash
Mix	Outdoor	Duvet
Quick Wash 14 min	Refresh	Rinse
Drain + Spin	Self Clean	Synthetics

Washing Temperature

Cool	20°C	30°C
40°C	60°C	90°C

Special programmes

Outdoor	Refresh	Anti-allergy
Antimacchia	Wool	

Display

Residual time indicator	delay start

Display type LED DISPLAY

Buttons/Options

Delay timer	Spin Speed	Temperature
Prewash	Quick	Steam

Programme progress indicator (light)	Lights
End of cycle indicator (light)	On display

Technical Features

Type of motor	Brushless/Inverter	**Liquid detergent accessory as standard**	Yes
Electronic control functioning	Yes	**Door diameter**	34 cm
Programme selection knob	Yes	**Door opening**	160°
Spin speed selection on display/LED	No spin/ 600/ 800/ 1200/ 1400/ Rinse hold	**Automatic variable load**	Yes
		Antifoam system	Yes
		Load balancing system	Automatic

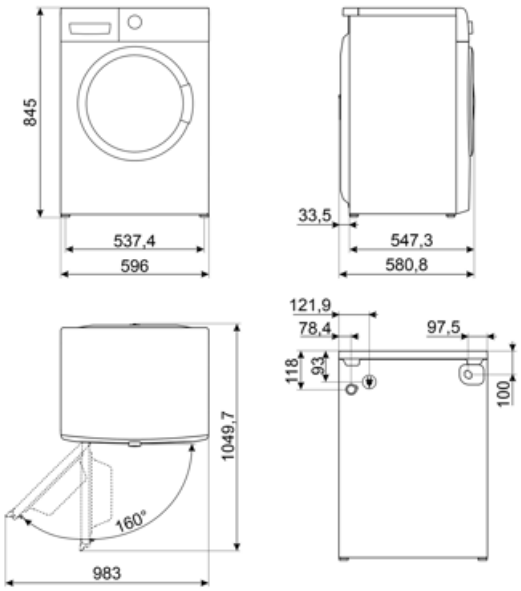

Display/led for temperature regulation	Yes	**Easy to access filter**	Yes
Polypropilene tank	Yes	**Child lock (functions block)**	Control block
Basket	Stainless steel		
Drum capacity	55 l		

Performance / Energy Label - Reg. 2019

Supplier's name or trademark	SMEG	**Spin-drying efficiency class**	B
Rated Capacity	8 kg	**Airbone acoustical noise class**	B
Energy Efficiency Class	A	**Airbone acoustical noise**	76 dB(A) re 1 pW
Energy_cons_100	47 kWh	**Programme duration at rated capacity**	3:38 h:min
Water Consumption	47 litres		

Electrical Connection

Nominal power	1750 W	**Frequency (Hz)**	50 Hz
Current	10 A	**Power supply cable length**	140 cm
Voltage (V)	230 V	**Plug**	(F;E) Schuko

Compatible Accessories

KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

KITSPNC1

KITSPNC

Stacking kit dedicated to WN & DN
Dimension (mm): L598xH35xP618

Symbols glossary

Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Energy efficiency class A

Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

34 cm: Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Prewash: program designed for heavily soiled garments.

Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.

Eco 40-60: reference programme defined by EU regulations for measuring the energy performance of washing machines. Ideal for normally soiled cotton garments washable at 40 °C or 60 °C, it provides an excellent balance between cleaning performance and savings, although it requires a longer washing time.

Cotton: programme designed for washing medium to heavily soiled cotton garments, ensuring thorough and effective cleaning.

To drain the water in the machine.

Wool/Hand wash: ideal program for delicate, wool and silk garments that require particular attention in washing. It uses room temperature water and slow drum rotations to ensure maximum garment care.

Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.

Super fast 14 min.: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Refresh: an ideal program to refresh the garments that have been kept for a long time indoors and eliminate unpleasant odors, without having to wash.

Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.

Shirts: Specific program that allows you to wash shirts with the utmost attention. The addition of steam at the end of the cycle ensures a reduction in the formation of creases and ironing times.

Synthetics: programme designed for synthetic and mixed-fibre fabrics. Ideal for lightly to normally soiled garments, it uses moderate temperatures and a gentler washing action to protect the fibres and reduce creasing, ensuring effective cleaning without stressing the materials.

Option that allow to reduce times of the selected program.

Drum has maximum capacity of 8kg of dry laundry.

Temperature Adjustment: allows you to tailor the wash cycle to your needs by selecting the most suitable temperature to protect fabrics, remove dirt, and achieve optimal results with every wash.

Self Clean: this programme, to be run with an empty drum, thoroughly cleans the inside of the washing machine by removing fabric and detergent residues, as well as bacteria that can accumulate during low-temperature washes.

Spin: a programme designed to perform an effective spin cycle to remove excess water from garments.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Stains: a dedicated programme specifically designed for the effective removal of the most common stains from durable cotton garments. Thanks to optimised washing and rinsing parameters, it delivers excellent cleaning results by adapting the treatment to different types of soiling, ensuring clean and well-cared-for laundry.

Benefit (TT)

Standard dimensions to fit any home environment, with optimal capacity and advanced features

15 programmes

Up to 15 programmes to meet every daily need

LED Display

With soft touch control and LED lights for intuitive and fast setting and selection of each option

Steam Energy Technology

Perfect removal of stains, smells, creases and allergens using steam

Steam Energy technology, uses steam, at the beginning or end of the cycle depending on the programme, to remove stains, creases, smells and allergens.

Inverter

Greater energy efficiency, lower consumption, and longer lifespan by reducing wear and noise thanks to the Inverter motor

Giant door

Increased convenience and versatility, making loading and unloading laundry easier thanks to the new giant door opening
