### KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

# Symbols glossary

٥	Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.	()	Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.
ს	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.	A G	Energy efficiency class A
$\bigcirc$	Delay timer: can be set to run the programme at a convenient time or to take advantage of off- peak energy periods.		LED display: to show programmes, functions and options selected and the time to the end of the cycle.
9	34 cm: Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.	O	This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.
9	Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.	ٵ	Prewash: program designed for heavily soiled garments.
থি	Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.		Cleaning programme: A cleaning programme has been created to maintain the performance of washer/dryers. The display shows automatically when cleaning is required.
<b>E</b>	Cotton: For soiled fabrics in cotton	Real Provided International Provided Internat	Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.
Ţ	To drain the water in the machine.	Mix	Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.
G.	Super fast 14 min.: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.	ů	Refresh: an ideal program to refresh the garments that have been kept for a long time indoors and eliminate unpleasant odors, without having to wash.

Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.

S

Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.

Option that allow to reduce times of the selected program.

Drum has maximum capacity of 8kg of dry laundry.

P	Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy
	ironing.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

5

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

### Benefit (TT)

Standard dimensions to fit any home environment, with optimal capacity and advanced features

#### 15 programmes

Up to 15 programmes to meet every daily need

### LED Display

With soft touch control and LED lights for intuitive and fast setting and selection of each option

### Steam Energy Technology

Perfect removal of stains, smells, creases and allergens using steam

Steam Energy technology, uses steam, at the beginning or end of the cycle depending on the programme, to remove stains, creases, smells and allergens.

#### Inverter

Greater energy efficiency, lower consumption, and longer lifespan by reducing wear and noise thanks to the Inverter motor

### Giant door

Increased convenience and versatility, making loading and unloading laundry easier thanks to the new giant door opening
