

**Product fiche concerning the Commission Delegated Regulation (EU) No 65/2014 of 1 October 2013 and COMMISSION REGULATION (EU) No 66/2014 of 14 January 2014**

|                                                                                     |                             |
|-------------------------------------------------------------------------------------|-----------------------------|
| Supplier name or brand                                                              | SMEG                        |
| Product code                                                                        | A4-81                       |
| Energy class first cavity (2002/40/CE)                                              | B                           |
| No. of Cavities                                                                     | 2                           |
| Δείκτης ενεργειακής απόδοσης                                                        | 93.8                        |
| Energy efficiency class                                                             | A                           |
| Energy consumption per cycle in conventional mode                                   | 0.95 kWh                    |
| Energy consumption per cycle in fan-forced mode                                     | 0.76 kWh                    |
| GAS - Energy consumption conventional mode                                          | 3.42 MJ                     |
| GAS - Energy consumption in forced air convection                                   | 2.74 MJ                     |
| Heat source first cavity                                                            | PEYMA                       |
| Volume                                                                              | 61 λίτρα                    |
| Δείκτης ενεργειακής απόδοσης, δεύτερη κοιλότητα                                     | 106.4                       |
| Energy efficiency class, second cavity                                              | A                           |
| Energy consumption per cycle in the forced convection of the second cavity          | 0.95 kWh                    |
| Energy consumption per cycle in the forced convection of the second cavity          | 0.83 kWh                    |
| Gas - Energy consumption per cycle in natural convection in the second furnace      | 3.42 MJ                     |
| Gas - Energy consumption per cycle in convection of forced air in the second cavity | 2.99 MJ                     |
| Heat source second cavity                                                           | PEYMA                       |
| Volume, second cavity                                                               | 55 λίτρα                    |
| Product mass                                                                        | 139.000 kg                  |
| Type of hob                                                                         | Αέριο                       |
| No. of cooking zones/areas and/or gas burners                                       | 6                           |
| Position zone 1                                                                     | Εμπρός αριστερά             |
| Position zone 2                                                                     | Πίσω αριστερά               |
| Position zone 3                                                                     | Μπροστά κέντρο              |
| Position zone 4                                                                     | Πίσω κέντρο                 |
| Position zone 5                                                                     | Εμπρός δεξιά                |
| Position zone 6                                                                     | Πίσω δεξιά                  |
| Position zone 7                                                                     | Πίσω αριστερά               |
| Position zone 8                                                                     | Δεξιά                       |
| Heating technology zone 1                                                           | Αέριο - Υπερταχείας (διπλό) |
| Heating technology zone 2                                                           | Αέριο - Ημι-ταχείας         |
