## Symbols glossary

---

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.

## Benefit (TT)

---

### **Reversible door**

Reversible door for easy and versatile installation in any kitchen

### **Push-pull opening system**

Push-pull opening system for easy opening and closing when needed, with the simple pressure of the surface at the end of the door

### **UV-protected door glass**

The UV-protected door glass protects the bottles from the passage of light into the wine cooler for impeccable storage

### **LED lights**

LED lights ensure perfect multi-level visibility inside the wine cooler

### **Activated charcoal air filter**

The activated charcoal air filter ensures excellent quality of the air and is easy to maintain

### **Touch Display**

Touch display for an easy and accurate temperature management inside the refrigerated compartment

### **Low-vibration compressor**

The low-vibration compressor avoids exposing the bottles to prolonged vibrations, which could compromise the quality of the wine

### **Telescopic guides**

Telescopic sliding guides for easy extraction of wine bottles
