

DOSP6390X

Category	60cm Double Ovens (Built-in Column)
Product Family	Oven
Power supply	Electric
Heat source	Electric
Heat source second cavity	Electric
Cooking method	Thermo-ventilated
Cooking Method Secondary Oven	Static
Cleaning system	Pyrolytic
EAN code	8017709210656

Aesthetics

Aesthetics	Classic	Serigraphy type	Symbols
Colour	Stainless steel	Door	With 2 horizontal strips
Finishing	Fingerproof	Handle	Classic
Design	Flat	Handle Colour	Stainless steel
Material	Stainless steel	Logo	Embossed
Type of steel	Brushed	Control knobs	Classic
Glass Type	Eclipse	Controls colour	Steel effect
Serigraphy colour	Black		

Programs / Functions

No. of cooking functions 8
Traditional cooking functions

Static	Fan assisted	Circulaire
Turbo (circulaire + bottom + upper + fan)	ECO	Large grill
Fan grill (large)	Base	Fan assisted base

Other functions

 Defrost	 Defrost by time	 Defrost by weight
 Proving	 Sabbath	

Cleaning functions

 Pyrolytic	 Pyrolytic eco
--	---

Programs / Functions Auxiliary Oven

No. of functions Secondary oven 4

Traditional cooking functions, cavity 2

 Static	 ECO	 Small grill
 Large grill		

Controls

Display technology	LCD	No. of controls	4
Control setting	Control knobs		

Options

 			
Time-setting options	Delay start and automatic end cooking	Showroom demo option	Yes
Minute minder	Yes	Rapid pre-heating	Yes
Controls Lock / Child Safety	Yes		

Options Auxiliary Oven

Time-setting options	No delay options
-----------------------------	------------------

Technical Features

Minimum Temperature	30 °C	Door	Cool
Maximum temperature	280 °C	Removable door	Yes
Shelf positions	5	Full glass inner door	Yes
No. of lights	1	Removable inner door	Yes
Light type	Halogen	Total no. of door glasses	4

Light power	40 W	Cooling system	Tangential
Light when door is opened	Yes	Cooling duct	Double
Lower heating element power	1200 W	Speed Reduction Cooling System	Yes
Upper heating element - Power	1000 W	Door Lock During Pyrolysis	Yes
Grill element - power	1700 W	Usable cavity space dimensions (HxWxD)	360x460x425 mm
Large grill - Power	2700 W	Temperature control	Electronic
Circular heating element - Power	2000 W	Cavity material	Easy clean enamel
Heating suspended when door is opened	Yes		

Second Oven Technical Features

Minimum Temperature	50 °C	Grill element - power	1700 W
Maximum temperature	270 °C	Large grill - Power	2700 W
Shelf positions	2	Removable door	Yes
Tilting grill	Yes	Full glass inner door	Yes
No. of lights	1	Removable inner door	Yes
Light type	Halogen	No. of total door glasses	3
Light power	40 W	No. of thermoreflecting door glasses	1
Bottom heating element power	1200 W	Usable cavity space dimensions (HxWxD)	169x440x443 mm
Upper heating element - Power	1000 W		

Performance / Energy Label

Energy efficiency class	A	Energy consumption per cycle in fan-forced convection	0.80 kWh
Net volume of the cavity	70 litres	Number of cavities	2
Energy consumption per cycle in conventional mode	1.09 kWh	Energy efficiency index	95,2 %
Energy consumption in conventional mode	3.92 MJ	Energy Efficiency Index, second cavity	105,7 %
Energy consumption in forced air convection	2.88 MJ		

Performance /Energy Label - Second Cavity

Energy efficiency class, second cavity	A	Net volume of the second cavity	35 litres
Energy efficiency class, second cavity	A	Gross volume of second cavity	41 l

Energy consumption per cycle in conventional mode, second cavity 0.74 KWh

Consumo di energia per ciclo in convezione naturale, seconda cavità 2.66 MJ

Cavity type EN 50304 second oven medium

Accessories Included

Chrome shelf with back and side stop 3
Extra deep enamelled tray (40mm) 2

Grill mesh 2
Telescopic Guide rails, partial Extraction 1

Electrical Connection

Voltage 220-240 V
Current 25 A
Nominal power (W) 5700 W

Voltage 2 (V) 380-415 V
Frequency (Hz) 50/60 Hz
Power supply cable length 150 cm

Not included accessories

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

Symbols glossary

 <p>Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>	 <p>A: Product drying performance, measured from A+++ to D / G depending on the product family</p>
 <p>Air cooling system: to ensure a safe surface temperatures.</p>	 <p>With the switch on this symbol, no heating is possible even if the thermostat is turned.</p>
 <p>Defrost by time: with this function the time of thawing of foods are determined automatically.</p>	 <p>Defrost by weight: With this function the defrosting time is determined</p>
 <p>Triple glazed doors: Number of glazed doors.</p>	 <p>Quadruple glazed: Number of glazed doors.</p>
 <p>Electric</p>	 <p>Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.</p>
 <p>Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.</p>	 <p>Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.</p>
 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>	 <p>Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.</p>
 <p>Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.</p>	 <p>Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.</p>
 <p>Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.</p>	 <p>ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.</p>
 <p>ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.</p>	 <p>Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p>

- 

Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.
- 

Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
- 

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.
- 

Pyrolytic: Pyrolytic cleaning cycles can be selected as necessary to automatically clean the oven interior.

Pyrolytic: The Eco pyrolytic cleaning function can be selected when the oven has a lighter build up of dirt. This function has a maximum duration of 1.5 hours.
- 

ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.

Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted
- 

Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.

Sabbath: This function allows you to cook food whilst respecting the provisions of the Jewish day of rest.
- 

The oven cavity has 2 different cooking levels.

The oven cavity has 5 different cooking levels.
- 

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.
- 

Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.

The capacity indicates the amount of usable space in the oven cavity in litres.
- 

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.
- 

The capacity indicates the amount of usable space in the oven cavity in litres.

Benefit

Electronic control

Timely temperature management and heat uniformity

Allows you to precisely maintain the temperature inside the oven at 2- 3 ° C. This enables the preparation of temperature-sensitive meals such as cakes, souffles, and puddings.

Rapid pre-heating

Rapid pre-heating provides a reduction in the cooking cavity heating time by up to 50%
