## Symbols glossary

 <p><b>Power booster:</b> option allows the zone to work at full power when very intense cooking is necessary.</p>	 <p><b>Standard installation:</b> Traditional installation in tabletop, suitable for any kitchen sets</p>
 <p><b>Child lock:</b> some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>	 <p>The slider control panel allows you to adjust the power simply by passing your finger across the touch device.</p>
 <p><b>Keep warm function:</b> Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.</p>	 <p><b>Overheat protection:</b> The safety system that automatically turns off the hob in case of overheating of the control unit.</p>
 <p><b>Induction:</b> The work of these hobs is based on the principle of electromagnetic induction.
